Letter of Transmittal

On behalf of the Strategic Infrastructure Reinvestment Policy (SIRP) Implementation Committee, we submit this summary report of our recommendations for consideration by Winnipeg's elected officials.

Thank-you to the members of the seven individual SIRP Sub-Committees for preparing their reports and developing the recommendations presented herein. The Committee truly appreciates the time and effort devoted by all members, staff and other contributors.

We believe the recommendations in this report will take our City one step closer to successfully addressing our infrastructure deficit.
