wading pool rules

Wading pools have a maximum depth of 45–60 cm (18–24 in.). For the safety and enjoyment of all participants, the following rules will apply at all Community Services Department operated wading pools:

- Wading Pools are for children 12 years of age and under.
- Children **under 5 years of age must** have a parent/guardian or caregiver 12 years of age or older actively supervising them at the pool.
- Appropriate swimwear is required (i.e. swimsuit, shorts).
Note: Young children must wear tight-fitting rubber pants over disposable or cloth diapers **and** bathing suits to ensure fecal matter is contained. “Little Swimmers” with a bathing suit are also acceptable.
- Children under 5 must be **actively** supervised when using the slide.
- Children must slide feet first.
- For one-person slides, one child permitted on the slide at one time.
- The bottom of the slide must be clear prior to the next child descending.
- Persons infected with a communicable disease or having open sores cannot enter the water.
- Do not drink water from the spray features.

The following are **not permitted** at a wading pool site:

- Glass containers or food in or around the pool area.
- Play that may be deemed hazardous to other persons in and around the pool facility (e.g. no running, diving, spitting/spouting water, etc.)
- Pets.
- Smoking.
- Alcohol/drugs.
- Bicycles/skateboards/scooters/in-line skates, etc.
- Sand, due to its effect on water quality.
- Abusive/profane language.

Please note that bathing loads are established for each site and will be enforced.

Every effort will be made to help participants/groups understand the importance of safety at the wading pool. The Community Services Department reserves the right to restrict participation for a designated time period in the event behaviour becomes a safety concern.

We understand the importance for families and friends to capture precious moments in a picture. To ensure it is a positive experience for all patrons, specific procedures are required when using video and photographic equipment such as cameras, video cameras, camera phones, etc. For more details, please consult the Wading Pool Attendant.

age restrictions at wading pools - rules regarding underage children

Due to the level of risk involved in all water environments and to ensure the safety of all participants, the City of Winnipeg Community Services Department has established the following rules for children using the wading pool:

- Children **under 5 years of age must** have a parent/guardian or caregiver 12 years of age or older in attendance with them at the pool.
- Children arriving onsite without suitable supervision will be asked to leave the wading pool area until they can return with the appropriate parent/guardian/caregiver.
- The parent/guardian/caregiver must be actively supervising the children at all times.
- Active supervision includes being in the water with the children within arms’ reach.
- The Wading Pool Attendant has the right to allow or prevent access to any part of the pool or the pool in its entirety should there be any safety concerns regarding the patron’s use of the facility.
- Wading Pool Attendants have complete authority.

closing procedures

Draining of the wading pool is coordinated with the time the pool closes. Staff will begin draining the pool prior to closing and as a result, there will not be a full basin of water at closing time. Children will be permitted to stay in the wading pool while it is draining under the following conditions:

- Children do not play near or sit on the drain.
- There is no whirlpool present.
- The attendant does not have to leave the wading pool area to attend to other facility requirements.

If, for any reason, the attendant must leave the pool area, the attendant will clear the wading pool of all patrons until he/she has resumed visual contact of the pool.

wading pool closures

A wading pool may be closed if any of the following conditions arise:

- The weather turns to thundershowers during the day.
- Lightning and/or thunder are present.
- Inclement weather is forecasted as detailed below (see **Inclement Weather Closure Procedure**).
- Maintenance problems (e.g. pump damage, no drain cover).
- Water, electricity, access to a phone for emergencies, first aid kit or washroom facilities are not available.
- Foreign material is found in the wading pool water, such as glass, fecal matter, vomit, animals or blood, which can affect pool water clarity and quality.
- The chlorine level is above or below the standards set by the Manitoba Public Health Act.
- The wading pool has not met Manitoba Public Health requirements.

All unscheduled wading pool closures will be listed on the web at Winnipeg.ca or call 311 after 10:30 am each day.

inclement weather closure procedure

The Inclement Weather Closure Procedure is based on the Environment Canada forecast for the day. The decision whether to open or close the pools will be made at 10:30 am each morning. Any closure decision is based on the following criteria:

- The projected high temperature for the day is 21° Celsius or lower.
- The percentage of rain in the forecast is 70% or higher.

These closures will be listed on the web at Winnipeg.ca or call 311 after 10:30 am each day.

rules for groups

Wading Pool Rules apply to all patrons. However, additional rules specific for group use are in place when groups are utilizing wading pools.

group responsibilities

1. Group Leader-Child ratios must be adhered to when the children are in the water and surrounding area. Group leaders must be actively supervising their group. Where two or more leaders are present, one leader must be in the water and the other supervising from the deck (unless ratios determine otherwise).

Ratios have been established as follows and are not negotiable:

age of children	# of leaders required	# of children
Infant to 1 year	1	1
2–3 years	1	2
4–5 years	1	5
6–9 years	1	8
10–12 years	1	12

Mixed ratios do not apply at wading pools due to the serious safety concerns present in an aquatic setting. For example, two leaders are required for a group of 8 children where seven are 8 years of age and one is 4 years of age.

2. If a group arrives onsite and the wading pool is at bathing capacity, groups will be required to wait until space becomes available.
3. Groups will be **limited to a stay of 1.5 hours** should other patrons be waiting for entrance.
4. Group leaders are responsible for the behaviour of the children they bring to the wading pool, including any disciplinary actions. The Wading Pool Attendant does have the authority to speak to the children directly if necessary.
5. Groups are welcome at wading pools city-wide. Pre-arranged group bookings are only accepted for Dakota Park. See **Dakota Park Group Bookings** for more details.
6. Groups failing to comply with the Rules for Groups will not be permitted to use any city wading pools until the appropriate safety provisions are in place. Every effort will be made to work with groups to ensure a safe environment for all patrons.

The Manitoba Child Care Program, Department of Family Services and Housing supports the Wading Pool Rules for Groups.

spray pad rules

Spray pads are unsupervised.

Spray pads do not have deep water but children must be closely supervised at all times and must follow these rules:

- Children under 12 years of age must be accompanied by a parent/guardian.
- Footwear is strongly recommended.
- Bicycles, skateboards, scooters and in-line skates are not permitted in the area.
- For safety reasons, glass is not permitted.
- Please, no pets.
- People with a communicable disease shall not use the spray pad.
- Do not drink water from the spray features.

For maintenance concerns, call 311.

mobile play van

Play is on the move! Children 6–12 years of age are invited to participate in some summer fun! Activities will include arts and crafts, games and sports. Watch for our mobile play van, weather permitting, **July 5 through August 13, 2010** at the following locations:

Mobile Play locations and times are subject to change. Please call 311 for more information.

Dakota Park group bookings

Dakota Park is open to the public from 11:00 am–6:00 pm Monday to Sunday. The bathing capacity is 100 persons within the wading pool enclosure at any given time. Should the wading pool be at capacity, patrons will be required to wait until space becomes available. During regular pool hours, groups will be limited to a stay of 1.5 hours in order to accommodate all patrons. Due to the popularity of this park, the following procedures have been put in place to ensure the safety and enjoyment of all participants:

- Dakota Park will be available for special group bookings from 9:30–10:45 am Monday to Friday.
- Bookings are first-come first-serve and must be submitted in writing a **minimum of 48 hours in advance**.
- Groups arriving onsite without a booking will be required to wait until regular pool hours, 11:00 am–6:00 pm.
- Rain date bookings will not be accepted at this time.

to book Dakota Park:

Family	\$10.72	—	\$83.45

The depth of water at outdoor pools ranges between 3–12 feet deep. Therefore, special safety measures are in place regarding the age and height of children entering the pool as well as additional supervision requirements for children under 7 years of age.

For safe use of our outdoor pools, please visit our website at Winnipeg.ca, or call 311 for additional inquiries.

New Kildonan Outdoor Pool

Kildonan Park Outdoor Pool has become a swimmer's paradise! Visit the newly renovated pool which now includes 21 water splash features, a new wading pool, beach-style entry into the swimming pool, 2 water slides and, of course, the 50-metre swimming pool complete with 3 1-metre diving boards. Note: Outdoor pool admission rates apply for entrance into the spray park.

Coming Summer 2010!
