Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.

QUESTIONS AND ANSWERS

- Q1** RFP Section D4.4.3b (Primary Dike Procedures) – The RFP states that the Proponent will provide advice, feedback and review to WWD on computing dike deficiencies up to JAPSD 27.5 ft water level plus 2 ft of freeboard. Can you provide some clarification regarding the scope of work envisioned for both WWD and the Proponent for this task?
- A1** The consultant will provide documentation to WWD to allow WWD to carry out the task of computing dike deficiencies for input into the Flood Manual database by the consultant. As WWD carries out the work the consultant will provide advice if questions arise on an as-required basis. When WWD has completed their work the consultant will review the work for its adequacy and completeness.
