B15. AWARD OF CONTRACT

B15.1 The City will give notice of the award of the Contract or will give notice that no award will be made.

B15.2 The City will have no obligation to award a Contract to a Bidder, even though one or all of the Bidders are determined to be responsible and qualified, and the Bids are determined to be responsive.

Equipment shall not be parked, repaired, refuelled; construction materials shall not be stored, and earth materials shall not be stockpiled within the driplines of trees. The dripline of a tree shall be considered to be the ground surface directly beneath the tips of its outermost branches. The Contractor shall ensure that the operations do not cause flooding or sediment deposition on areas where trees are located.
- (e) Work on-site shall be carried out in such a manner so as to minimize damage to existing tree branches. Where damage to branches does occur, they shall be neatly pruned.

E2.2 All damage to existing trees caused by the Contractor's activities shall be repaired to the requirements and satisfaction of the Contract Administrator and the City Forester or his designate.

- E4.3.6 Median openings, intersections, and private approaches to remain open to traffic unless joint/slab repairs or planing/paving operation require temporary closure. Temporary closures to be staggered such that consecutive intersections are not closed at the same time.
- E4.3.7 Should the Contractor be unable to maintain pedestrian or vehicular access to a residence or business, he shall review the planned disruption with the business or residence and the Contract Administrator, and take reasonable measures to minimize the impact. The Contractor shall provide a minimum of 24 hours notification to the affected residence or business and the Contract Administrator, prior to disruption of access.
- E4.3.8 Cross streets, private approaches, and median openings may be temporarily closed for short periods during the asphalt placement and compaction Works to allow for mainline grade control devices and asphalt compaction. Contractor to minimize temporary closures by "stringing" short sections, and taking down "stringline" as soon as the asphalt mat has been rolled and is safe for cross street travel.
