

FORM A: PROPOSAL
(See B9)

1. Contract Title SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT

2. Bidder

Name of Bidder

Usual Business Name of Bidder as it appears on Invoice (if different from above)

Street

(Mailing address if different)

City Province Postal Code

Email Address of Bidder

Facsimile Number

Street or P.O. Box

City Province Postal Code

(Choose one)

GST Registration Number (if applicable)

The Bidder is:

a sole proprietor

a partnership

a corporation

carrying on business under the above name.

3. Contact Person The Bidder hereby authorizes the following contact person to represent the Bidder for purposes of the Proposal.

Contact Person Title

Telephone Number Facsimile Number

4. Definitions All capitalized terms used in the Contract shall have the meanings ascribed to them in the General Conditions and D3.

5. Offer The Bidder hereby offers to perform the Work in accordance with the Contract for the price(s), in Canadian funds, set out on Form B: Prices, appended hereto.
6. Execution of Contract The Bidder agrees to execute and return the Contract no later than seven (7) Calendar Days after receipt of the Contract, in the manner specified in C4.3.01.
7. Commencement of the Work The Bidder agrees that no Work shall commence until he/she is in receipt of a notice of award from the Award Authority authorizing the commencement of the Work.
8. Contract The Bidder agrees that the Request for Proposal in its entirety shall be deemed to be incorporated in and to form a part of this offer notwithstanding that not all parts thereof are necessarily attached to or accompany this Proposal.
9. Addenda The Bidder certifies that the following addenda have been received and agrees that they shall be deemed to form a part of the Contract:
- | | | | |
|-----|-------|-------|-------|
| No. | _____ | Dated | _____ |
| | _____ | | _____ |
| | _____ | | _____ |
10. Time This offer shall be open for acceptance, binding and irrevocable for a period of one hundred and twenty (120) Calendar Days following the Submission Deadline.
11. Signatures In witness whereof the Bidder or the Bidder's authorized official or officials have signed this
_____ day of _____, 20_____.

Signature of Bidder or
Bidder's Authorized Official or Officials

(Print here name and official capacity of individual whose signature appears above)

(Print here name and official capacity of individual whose signature appears above)

FORM B: PRICES
(See B10)

SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT

BREAKDOWN OF TOTAL BID PRICE

ITEM NO.	DESCRIPTION	SPEC. OR RFP REF.	PRICE
1.	High Rate Clarification Equipment <i>Including all specified components and delivery</i>	46 43 80	\$
2.	Design Support and Programming Validation <i>Including all process engineering and design support, design coordination and validation meetings, programming coordination and validation meetings, and factory acceptance test attendance</i>	46 43 80	\$
3.	Submittals	01 33 00	\$
4.	Site Services, Commissioning of Equipment, and Field Testing <i>Including delivery inspection, installation contractor training, installation assistance and inspection, facility startup meeting, and functional and performance testing</i>	01 43 33 46 43 80	\$
5.	Operations and Maintenance Manuals	01 78 23	\$
6.	Training of City's Personnel	01 43 33 46 43 80	\$
7.	Spare Parts	46 43 80	\$
8.	General Requirements <i>Including insurances, performance securities and warranty</i>	D8, D10, D17	\$
TOTAL BID PRICE (Sum of Items 1 to 8) (GST and MRST extra)			
9.	Cost per Day for Additional Services (Commissioning, Training, Testing, etc.) by One (1) Contractor Representative at a location in Winnipeg, Manitoba designated by the Contract Administrator	B10.2	\$
10.	Cost per Return Trip for Travel by One (1) Contractor Representative to Winnipeg, Manitoba	B10.3	\$
11.	Cost for Additional Spare Ballast, \$/kg	B10.5	\$

Name of Bidder

FORM C: PROJECT REFERENCES
(See B13)

**SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT**

Provide three (3) project references of previously completed work, in sufficient detail to demonstrate the Bidder's qualification to undertake the Work.

Reference projects shall meet the following minimum criteria:

- Full-scale installation (not a pilot demonstration) for municipal wastewater treatment;
- Two years of operation;
- Peak flow capacity of 50,000 m³/day or greater;
- SOR the same or higher than proposed for SEWPCC.

Provide the following information for each of three (3) qualified project references:

Application (circle one): CSO/SSO, primary

Date of Becoming Fully Operational:

Rated Peak Flow Capacity (m³/day):

Bidder's Contract Value in Canadian dollars:

Owner:

Location:

Owner Contact Name:

Owner Contact Position:

Owner Contact Telephone No.:

Owner Contact Email:

Design SOR at Rated Peak Flow Capacity (m³/m²/day):

Design TSS Removal Efficiency or Effluent TSS Concentration:

Actual TSS Removal Efficiency or Effluent TSS Concentration Based on Historical Performance:

Type and Number of Units:

Coagulant and Polymer Types:

Design Coagulant and Polymer Doses:

Actual Coagulant and Polymers Doses:

Design Ballast Loss (if applicable):

Actual Ballast Loss (if applicable):

Description of Contract (such as scope of supply, other HRC design parameters, etc.):

Note: Bidder may make three (3) copies of this sheet to fill out legibly by hand or typed, or Bidder may use own sheet that includes all required information above. Attach additional sheets as required and label as Form C.

FORM E: SUMMARY OF SYSTEM CHARACTERISTICS
(See B15)

**SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT**

Complete the following summary tables for the proposed HRC system. Data submitted in this form will be used by the Contract Administrator to estimate the construction cost adjustment for the Bidder's proposed HRC facility (including civil, structural, mechanical, and electrical and instrumentation cost adjustments) as part of the life-cycle cost calculation in Form F. Provide data in METRIC units.

Item	Particulars
Utility Requirements	
Effluent Water Requirements	
Potable Water Requirements	
Coagulation Tank	
Tank inside dimensions, L x W x H	
Mixer Installed kW	
Mixer Running kW ^(a)	
VFD required for process control ?	
Impeller description	
Anti-vortex baffles ?	
Materials of construction	
Polymer & Ballast Tank	
Tank inside dimensions, L x W x H	
Mixer Installed kW	
Mixer Running kW ^(a)	
VFD required for process control ?	
Impeller description	
Anti-vortex baffles ?	
Materials of construction	
Recommended type of polymer	
Flocculation Tank	
Tank inside dimensions, L x W x H	
Mixer Installed kW	
Mixer Running kW ^(a)	
VFD required for process control ?	
Impeller description	
Anti-vortex baffles ?	
Materials of construction	
Clarifier	
Type (Circular / Rectangular)	
Tank inside dimensions, L x W x H	
Motor(s) Installed kW	
Motor(s) Running kW ^(a)	
VFD required for process control ?	
Materials of construction	
Lamella System	
Type	
Angle	
Material	
Weir Type	
Air Scour Blower Installed kW	
Air Scour Blower Running kW ^(a)

**SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT**

Recirculation Pumps	
Recirculation pump type	
Flow capacity per pump, L/s	
Quantity (duty / standby) per train	
Pump Installed kW	
Pump Running kW ^(a)	
VFD required for process control ?	
Materials of construction	
Ballast Addition System (if applicable)	
Ballast type	
Method of addition (slurry or dry)	
Capacity, kg/h	
Quantity	
Installed kW	
Running kW ^(a)	
VFD required for process control ?	
Materials of construction	
Ballast Recovery System (if applicable)	
Description of system	
Ballast Recovery Performance	
Quantity	
Installed kW	
Running kW ^(a)	
VFD required for process control ?	
Materials of construction	
Ancillaries	
Summary of ancillaries	
Instrumentation	
Influent turbidity analyzer make & model	
Effluent turbidity analyzer make & model	
pH analyzer make & model	
Sludge blanket level analyzer make & model	
Other – Bidder to enter items as necessary	

Note (a) - For running kW, use the conditions stated under Design Requirements (Clause 2.2) stated in the Specification Section 46 43 80, High Rate Clarification System.

Product Data and Other Data	

FORM F: LIFE CYCLE COST EVALUATION – CONTINUED
(SEE B16)

SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT

Recommended Maintenance Schedule

Complete the following with recommended maintenance activities and frequencies at which these are to be performed in order to maintain optimum performance of the equipment supplied.

Item	Description of Activity	Labour Time per Activity	Activity Frequency Per Year	Activity Annual Hours
1.				
2.				
3.				
4.				
TOTAL ANNUAL MAINTENANCE HOURS (sum of all activity annual hours):				

Life Cycle Cost Evaluation

1) Capital Cost	
A) Total Bid Price (from Form B)	\$
B) Construction Cost Adjustment: Relative differences in capital costs required to accommodate the equipment and achieve a fully-functioning HRC system including construction costs for piling, concrete, site preparation, civil works, galleries and buildings, mechanical and electrical infrastructure, odour control and sludge thickening.	Estimate to be determined by the Contract Administrator.
C) TOTAL CAPITAL COST (1A + 1B)	\$
2) Annual Power Cost	
A) Total Annual Power Draw, kWh (From Operating Data)	
B) Power Cost	\$0.05 / kWh
C) TOTAL ANNUAL POWER COST (2A x 2B)	\$
3) Annual Ballast Cost (if applicable)	
A) Annual Ballast Consumption, kg/year (From Consumables)	
B) Cost of Ballast, \$/kg (From Form B)	\$
C) TOTAL ANNUAL BALLAST COST (3A x 3B)	\$
4) Annual Chemical Cost	
A) Annual Coagulant, kg/year as Fe (From Consumables)	
B) Cost of Coagulant	\$ 2.00 / kg Fe
C) Annual Polymer, kg/year as active polymer (From Consumables)	
D) Cost of Polymer	\$ 5.00 / kg active polymer
E) Annual Alkalinity Supplement, kg/year (From Consumables)	
F) Cost of Alkalinity Supplement	\$ 0.65 / kg as CaCO ₃
G) TOTAL ANNUAL CHEMICALS COST (4Ax4B + 4Cx4D + 4Ex4F)	\$

FORM F: LIFE CYCLE COST EVALUATION – CONTINUED
(SEE B16)

**SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT**

5) Annual Maintenance	
A) Total Annual Maintenance Hours from Recommended Maintenance Schedule, hours	
B) Labour Rate, \$ per hour	\$ 70.00
C) TOTAL ANNUAL MAINTENANCE COST (5A x 5B)	\$
6) Annual Heating, Ventilation and Odour Control Costs	
A) Building heating, ventilation power, and odour control costs based on the size of the facility required to accommodate the equipment.	Estimate to be determined by the Contract Administrator.
B) TOTAL ANNUAL HEATING, VENTILATION AND ODOUR CONTROL COST (6A)	\$
7) Calculated O&M Cost	
A) LIFE CYCLE OPERATING COST ADJUSTMENT (2C + 3C + 4G + 5C + 6B)	\$
8) EVALUATED BID PRICE = 1C + Net Present Value of 7A¹	\$

Notes:

- 1) Net Present Value is calculated over a period of 30 years at a Discount Rate of 6% and an Inflation Rate of 5%.
- 2) Annual values reflect costs in year 1 of the 30 year LCC period.

FORM G: GUARANTEED PERFORMANCE
(See B17)

**SUPPLY AND DELIVERY OF HIGH RATE CLARIFICATION EQUIPMENT FOR THE SOUTH END
WATER POLLUTION CONTROL CENTRE (SEWPCC) UPGRADING / EXPANSION PROJECT**

Bidder to enter guarantee values for performance parameters listed below. Refer to High Rate Clarification technical specification (Section 46 43 80) for design requirements and field testing protocol for validating guarantee values.

Higher maximum SOR can be proposed upon approval in accordance with the Bidding Procedures (B.7 Substitutes).

Item	Value
Surface Overflow Rate (m ³ /m ² •day)	With Ballast: 100 Without Ballast: 67
Guaranteed TSS Removal:	At least 85% Removal Efficiency or effluent TSS concentration less than 25 mg/L
Guaranteed Maximum Ballast Loss, kg per ML: ^(a)	
Guaranteed Maximum Ferric Chloride Dose, mg/L as Fe ^(b)	
Guaranteed Maximum Alum Dose, mg/L as Al ^(b)	
Guaranteed Maximum Polymer Dose, mg/L as active polymer	

^(a) Enter N/A if Bidder's HRC equipment does not use Ballast

^(b) The Bidder is advised the preferred coagulant has not yet been selected, One coagulant, either ferric chloride or alum, will be selected by the City and used for HRC operation. For the life cycle cost evaluation for this RFP, ferric chloride will be assumed as the coagulant.
