QUESTIONS AND ANSWERS

Q1: Under the cloud based solution section E3.2.6 Security of Private Information: If a solution does not involve the gathering of any private information does this clause still apply to the vendor?

A1: If a proponent will not be collecting, accessing, using, or working in anyway with the personal information of City of Winnipeg employees (including employee contact and login information) or members of the public (images/video of pedestrians, license plates), then they need to explain that and why the standards listed in E3.2.6 are not relevant or necessary to their solution.
