2007 to 2011  
Five-Year  
Forecast**

# Preliminary Capital

## Letter from the Mayor and the Chairperson of the Standing Committee on Fiscal Issues

---

February 6, 2006

**TO ALL MEMBERS OF COUNCIL:**

**Re: Preliminary 2006 Capital Budget  
- and the -  
2007 to 2011 Five Year Forecast**

---

We are pleased to submit a preliminary capital investment plan for the City of Winnipeg for the years 2006 to 2011.

The 2006 Capital Budget and Five Year Forecast begins to address the substantial infrastructure deficit in Winnipeg. Through new strategic partnerships, primarily with the Government of Canada, new funding will be available. This capital plan outlines the next six years of our City's capital priorities by investing over \$1.4 billion in the City's infrastructure. Emphasis has been placed on the renewal and improvement of our sewer, water and transportation systems – areas which are vital to our citizens' daily lives. Some of the areas where significant capital investment will occur are:

- ❖ \$469 million for sewage and solid waste disposal projects
- ❖ \$284 million for roads and bridges
- ❖ \$184 million for the water system, of which \$100 million is for the new water treatment plant
- ❖ \$142 million for the transit system, of which \$50 million is for transit enhancements and \$27 million is for new diesel-electric hybrid buses
- ❖ \$142 million for land drainage and flood control
- ❖ \$44 million for the recreation and leisure facilities initiative

The capital plan is fiscally responsible. We will continue to finance the City's share of the tax-supported capital plan on a pay-as-you-go basis. Our "Cash to Capital" investment level of \$56 million per year continues in this plan. As a result of the City's commitment to reduce tax-supported debt, our net tax-supported debt has decreased by 43% since 1999.

We have been working with the Federal and Provincial governments to develop strategic partnerships on a number of fronts. This six year plan includes \$87 million from these two levels of government from the Canada Strategic Infrastructure Fund, which will go toward the Kenaston Underpass project, three pollution control centres and recreation and leisure facilities. We recognize a strong infrastructure base is a key component in supporting a dynamic and competitive economy.

The six year capital plan reflects \$130 million from the Government of Canada, which represents the City's share of federal gas tax revenue. This introduction of federal gas tax revenue enables strategic investment in wastewater and transit projects. City capital funding for roads and bridges has dramatically increased over the 2005 level by 88%. The City plans on spending \$73.5 million on improving and maintaining roads and bridges in 2006, as the City's commitment to roads and bridges is a priority.

The 2006 Capital Budget also includes a new \$1 million riverbank stabilization program, a \$1 million contribution to the Affordable Housing Initiative and an extension of the City-wide Accessibility program.

The Province of Manitoba continues its commitment to City capital projects through the new framework of the Building Manitoba Fund with approximately \$60 million going toward roads and transit over the 6 year period. The City will also work with the Province to select projects for funding under the new Manitoba/Winnipeg Infrastructure Program totalling \$70 million over six years, from the priorities included in the City's Capital Budget.

During the coming weeks, there will be further opportunity for all Members of Council and the general public to contribute to the capital budget process. We encourage you to participate actively in the budget review process to develop a final capital investment plan for Winnipeg for the next six years.

Respectfully submitted,

A handwritten signature in blue ink that reads "Sam Katz".

Sam Katz,  
Mayor

A handwritten signature in blue ink that reads "Mike O'Shaughnessy".

Mike O'Shaughnessy, Chairperson,  
Standing Committee on Fiscal Issues

## ***RECOMMENDATIONS***

1. That the 2006 Capital Budget totalling \$307,583,000, requiring borrowing authority totalling \$93,560,000 for the Waterworks System, Local Improvements and the Transit System (loan from the Federation of Canadian Municipalities), and the 2007 to 2011 Five Year Capital Forecast be reviewed and submitted to Council for adoption.
2. That the transfers from utility operations, reserves and other funds outlined in the capital budget submission be approved, with cash flows to be determined by the Chief Administrative Officer.
3.
  - a) That the City establish a Public Transit Reserve, in accordance with Section 289(1) of the City of Winnipeg Charter, dedicated for Government of Canada Federal Gas Tax (Bill C-66) Funds, for eligible projects;
  - b) That the Fund Manager for the Public Transit Reserve be the Director of Transit; and
  - c) That the Public Transit Reserve be terminated once eligible projects have been completed.
4. That the Director of Water and Waste be given the authority to redistribute federal gas tax revenue and retained earnings as sources of financing for approved capital projects, provided the total approved financing is not exceeded, to ensure the most effective use of federal gas tax revenues.
5. That the City work with the Province on project selection for funding under the new Manitoba/Winnipeg Infrastructure Program from priorities included in the City's Capital Budget.
6.
  - a) That the administration identify, investigate and recommend private-public partnership(s) for the police facilities identified in the "Four District Model Building Replacement" capital project; and
  - b) That funding for this process, including expressions of interest, be authorized from capital funds already approved for this project in prior years.
7. That the administration identify, investigate and include private-public partnerships in recommendations for the construction of new arterial roads or expressways identified in the five year capital forecast and report back prior to the development of future capital budgets.
8. That Council authorize the expenditures of \$9,888,000 prior to the adoption of the 2007 capital budget as a first charge, in accordance with Subsection 288(2) of The City of Winnipeg Charter, for the purchase of diesel electric hybrid transit buses in accordance with agreements to be entered into with the Federation of Canadian Municipalities, of which \$6,471,000 will be financed from the Transit Bus Replacement Reserve, and that Council approve borrowing authority for the balance of \$3,417,000 for 2007.

9. That the City Solicitor/Manager of Legal Services be requested to submit the necessary borrowing by-law directly to Council.
10. That the Proper Officers of the City be authorized to do all things necessary to implement the foregoing, including the execution of any documents related thereto.

# Preliminary 2006 Capital Budget and 2007 to 2011

## Five Year Capital Forecast

Executive Policy Committee

# POLICIES USED TO DEVELOP THE BUDGET

- **Policies used to develop the budget**
  - **Plan Winnipeg**
  - **Financial Management Plan**
  - **Capital Priority Rating System**

# THE CHALLENGE

## Balancing.....

**Infrastructure needs/  
Protecting the  
environment**

**Fiscal  
responsibility**

# HIGHLIGHTS

- **Capital investment plan:**
  - **\$1.4 billion over the next 6 years**
  - **\$307.6 million in 2006**
  - **Enhanced investment in roads and bridges, transit, and community facilities**
- **Fiscal responsibility – pay-as-you-go for tax-supported capital program**
- **Strategic partnerships**

# STRATEGIC PARTNERSHIPS

---

- **New Federal Gas Tax Revenue**
- **Canada Strategic Infrastructure Fund**
  - Kenaston Underpass
  - Recreation and leisure facilities
  - Wastewater collection and treatment projects
- **Manitoba / Winnipeg Infrastructure Program replacing the former Urban Capital Projects Allocation**
- **Provincial Building Manitoba Fund replacing former capital grants**
- **Federation of Canadian Municipalities**

# AREAS OF MAJOR CAPITAL INVESTMENT

## The six year plan includes:

- \$469 million for sewage and solid waste disposal projects
- \$284 million for roads and bridges
- \$184 million for the water system
- \$142 million for the transit system
- \$142 million for land drainage and flood control
- \$44 million for the recreation and leisure facilities initiative

# PROTECTING OUR ENVIRONMENT

- **Upgrades for wastewater collection and treatment**
- **Water treatment plant**
- **Combined sewer overflow management**
- **Land drainage and flood protection**
- **Diesel – electric hybrid transit buses**
- **Pedestrian and cycle facilities**
- **Reforestation**

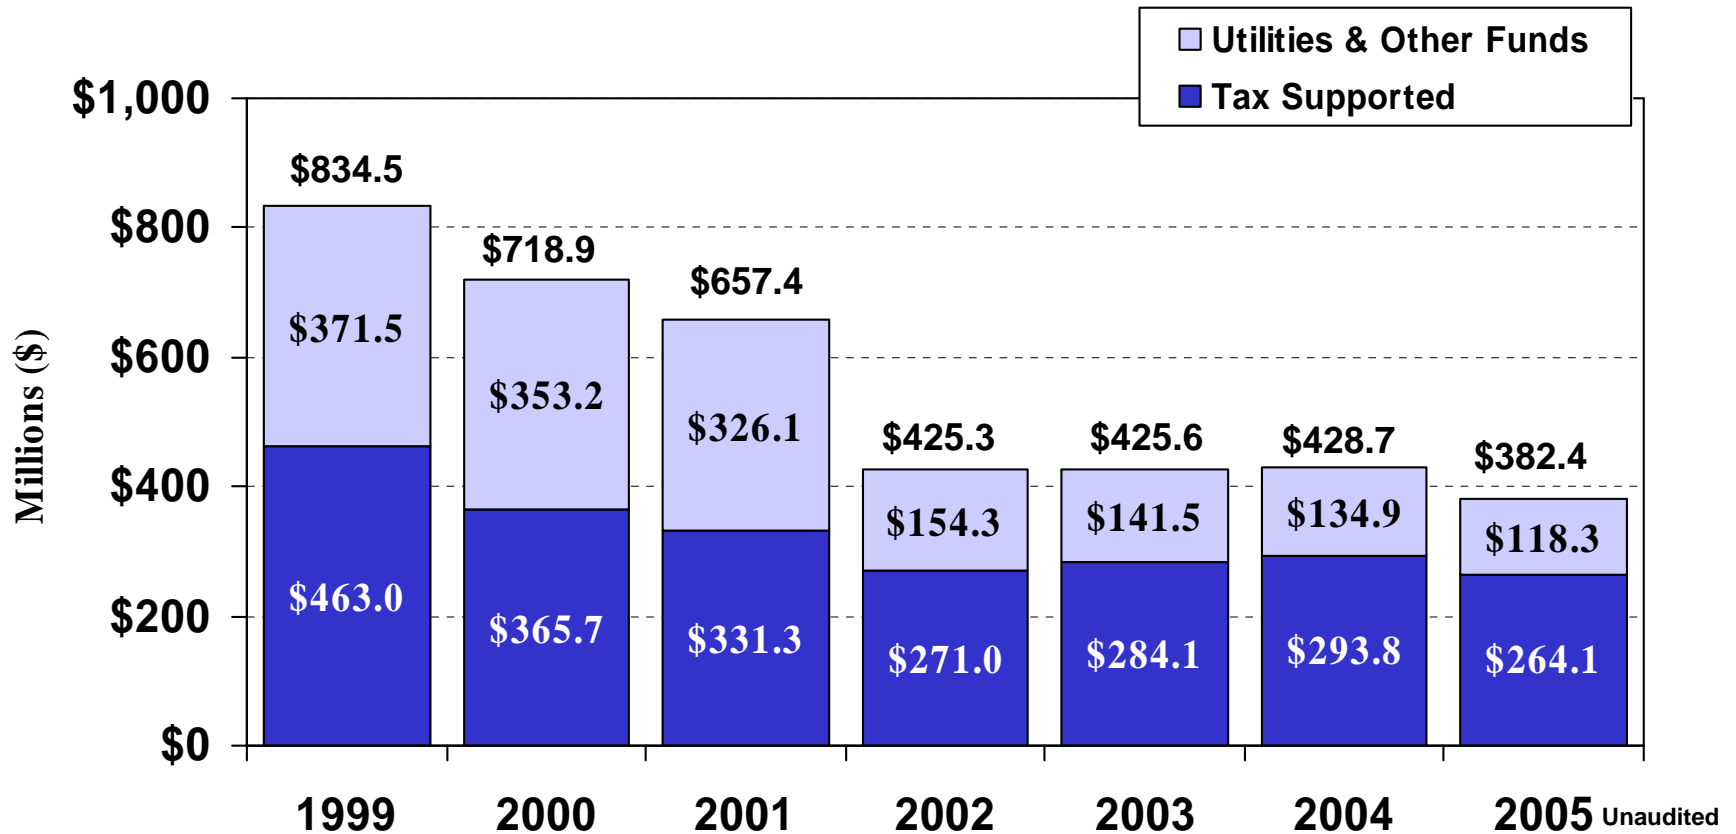

# HOW CAPITAL DOLLARS ARE SPENT

# SOURCES OF CAPITAL FUNDING

# TOTAL NET DEBENTURE DEBT

**Notes:** Net debenture debt decreased by 54% from 1999 to 2005. Net Tax-supported debenture debt decreased by 43% from 1999 to 2005. Civic Accommodations and Transit included in Utilities and Other Funds.
