## Mission Statement

The Senior Advisory Committee accepts the Age Friendly City concept as defined by the World Health Organization to be:

***"In an age-friendly community, policies, services and structures related to the physical and social environment are designed to support and enable older people to 'age actively' – that is, to live in security, enjoy good health and continue to participate fully in society."***

Public and commercial settings and services are made accessible to accommodate varying levels of ability. Age-friendly service providers, public officials, community leaders, faith leaders and business people:

- ▶ Recognize the great diversity among older persons,
- ▶ Promote their inclusion and contribution in all areas of community life,
- ▶ Respect their decisions and lifestyle choices,
- ▶ Anticipate and respond flexibly to age-related needs and preferences.
