Elm Tree Injections

To the resident:

Please be advised that the boulevard elm tree(s) in front of your property will be injected within the next 4 weeks as part of the City's effort to control Dutch Elm Disease.

The Work to be done under the Contract shall consist of the Provision of Elm Tree Injections for the period of June 1, 2009 to October 15, 2009.

Therapeutic injection, including pruning if required, shall be with a fungicide (Eertavas) legally registered in Canada for injection control of Dutch Elm Disease.

Should you have comments or concerns, please call the City of Winnipeg
