January 11, 2010

To Residents of Knowles Avenue between Gateway and De Vries

Invitation to an Open House about Upcoming Water and Sewer Construction on Knowles Avenue

We invite you to an open house to learn about upcoming construction on Knowles Avenue as a result of the successful local improvement process to install water and sewer services.

Date	Monday, January 25, 2010
Location	Covenant Christian Reformed Church, 653 Knowles Avenue
Time	7:00 to 9:00 p.m.
Presentation	7:30 p.m.

Construction to install the following new services on Knowles Avenue will begin late February or early March of this year and is expected to take four to five months:

- wastewater sewer between DeVries Avenue and Gateway Road,
- water main between De Vries Avenue and Gateway Road, and
- land drainage sewer between Gateway Road and Sunny Morning Road.

The presentation will cover:

- what you can expect during construction (e.g., disruptions to traffic, heavy equipment, safety precautions),
- an outline of the construction schedule,
- information on how you can connect to the new water main and wastewater sewer (connecting to the water main is optional, but the Province will require that you connect to the new wastewater sewer within the time limit specified under the Onsite Wastewater Management System Regulation 83/2003).

Staff will be available at the open house to answer your questions. If you are unable to attend, you can see the presentation on our web site after January 26, 2010, at winnipeg.ca/waterandwaste/dept/projects.stm

If you have any questions regarding the open house or the improvements, please contact our engineering consultant for this project, Hartley Katz of Stantec Consulting, by phone at 489-5900 during regular business hours, or by email at hartley.katz@stantec.com
