

## **PUBLIC ENGAGEMENT NEWS**

### **New Opportunities for Engagement with the City of Winnipeg**

#### **Public Engagement Question of the Week 4 – Have you participated before?**

This summer, we are asking how and why you engage. Please take a moment to answer and give us some guidance to prioritize our efforts with improving public engagement.

[Have you ever participated in public engagement organized by the City of Winnipeg?](#)

Yes    No

If Yes, how was your experience?

If No, is there a reason why you have not participated?

[Answer Now](#)

#### **Results from Question of the Week 3**

We received over 200 responses to our third question. Thank you for taking the time to respond. Accountability was the top principle that mattered most to respondents. We also heard from many respondents that all of the principles are important and must be applied together in order to achieve meaningful public engagement.

Other principles you provided included: community ownership, partnership, honesty, integrity, ethics, empowerment, credibility, authenticity, and reliability.

## Adjustable Bike Lane Curbs Pilot

This week, the City installed adjustable bike lane curbs in two locations to test installation methods, monitor maintenance, and assess the comfort level of users. The adjustable bike lane curbs were installed on Sherbrook Street south of Cumberland Avenue and on a section of Bannatyne Avenue next to Old Market Square for a nine-month pilot.

For more information, to [fill out a survey](#), or to view a map of the changes online, please visit [winnipeg.ca/walkbikeprojects](http://winnipeg.ca/walkbikeprojects) and select an adjustable bike lane curbs project. The survey will be open for the

duration of the pilot project.

## Ongoing Opportunities for Engagement with the City of Winnipeg

### Back-in, Angled Parking Pilot Survey

The City of Winnipeg is exploring ways to increase available on-street parking in the Exchange District. A pilot project was implemented on Monday, July 24, 2017 to test back-in, angled parking on the south side of Bannatyne Avenue between Rorie Street and Waterfront Drive. During this pilot project, we want to hear about your experiences with back-in, angled parking and other changes on Bannatyne Avenue between Rorie Street and Waterfront Drive.

To provide your feedback on the pilot project, please [complete a survey](#) between July 24 and September 25, 2017. For more information, please visit: [winnipeg.ca/angledparkingpilot](http://winnipeg.ca/angledparkingpilot)

### Seine River Crossing Recommended Location Survey

The Seine River Crossing study revealed the preferred location for the Seine River Crossing is Location C: Clonard Avenue to Archibald Street. Please provide additional comments on the recommended neighbourhood greenway design for the Southeast Corridor through a [short survey](#). Further information on feedback provided by citizens throughout this study is available in the [public engagement summary](#) and [full report](#).

For more information about the recommended design and feedback received to date, please visit [winnipeg.ca/walkbikeprojects](http://winnipeg.ca/walkbikeprojects). Feedback on the recommended design will be accepted until August 31, 2017.

### Winnipeg Canoe Club Golf Course Survey

Winnipeggers are being asked to help reimagine the future of the Winnipeg Canoe Club Golf Course.

In April 2019, the current lease of the course to a private operator will expire. The City of Winnipeg is seeking feedback from the public to find out how the space is currently used, and whether or not the public supports another golf course lease, or the creation of a mixed-use recreational space that includes additional services.

Winnipeggers are encouraged to provide input through an [online survey](#). The survey will be open until September 1, 2017. Later this year, citizens will be encouraged to attend a public workshop to review and refine several different recreational concepts.

For more information, please visit: [winnipeg.ca/CanoeClub](http://winnipeg.ca/CanoeClub)

## Engagement Update

### Chief Peguis Trail Extension West Phase One Engagement Report

A preliminary design study for the Chief Peguis Trail Extension from Main Street to Brookside Boulevard is currently underway and phase one of public engagement is now complete. Feedback is currently being considered. Feedback received during phase one is contained in a [public engagement report](#) and a [summary](#). At the end of the study, a final public engagement report will also be shared on the project website.

For more information, please visit: [winnipeg.ca/chiefpeguistrail](http://winnipeg.ca/chiefpeguistrail)
