Engagement Updates

Development Application Notification Review Report

Thank you to the stakeholders who participated in the development application notification review workshop and to the over 300 participants who completed the online survey. A [public engagement summary](#) outlining what we heard and how it was considered is now available on [the project website](#).

An [administrative report](#) outlining recommended changes to the development application notification process was developed with your input, the cross-jurisdictional scan results, and input from City staff. The administrative report will be reviewed by the Standing Policy Committee on Property and Development, Heritage, and Downtown Development on Tuesday, September 4, 2018 in the Council building at 510 Main Street. [The meeting agenda](#) is now available online. If you would like to [appear as a delegation](#), please [contact City Clerk's](#).

Climate Change Action Plan Report

Thank you to everyone who provided feedback during development of Winnipeg's Climate Action Plan. [The Plan](#) is now available and will be reviewed by the [Standing Policy Committee on Water and Waste, Riverbank Management and the Environment](#) on Thursday, September 6, 2018. [The meeting agenda](#) is now available. If you would like to [appear as a](#)

[delegation](#), please [contact City Clerk's](#).

Question of the Week - Thank you for participating!

Thank you for taking the time to complete the summer questions of the week so our summer newsletter could serve as a way to collect input on improving engagement. Fall newsletters will go back to updating you on opportunities to engage. As we move forward, we will continue to look for new and interesting ways to ask for your feedback as we carry on improving public engagement.

Question of the Week 4 Results

We compared results from this year to last year in response to how many of you have participated, what your experience was like, and if not, why. We received less responses this year and we will take that into consideration when determining future methods for gathering input on public engagement.
