New Opportunities for Engagement with the City of Winnipeg

The City of Winnipeg kicked off two major transit projects and is inviting Winnipeggers to share their input. Information about both projects will be available at all events.

Be part of developing a plan for Transit for the next 25 years

The Transit Master Plan is starting. Get involved and provide your feedback on how you use transit, what is and what’s not working for you in our current system, and what’s important to you in our future transit system.

- Share your thoughts online
- Attend any of the 11 in-person event. Details on open houses and pop-ups here.
- Sign up for updates by emailing transitmasterplan@winnipeg.ca.

Visit winnipeg.ca/transitmasterplan for more information. Feedback is being collected from March 15 to April 20.

Southwest Transitway Route Planning

Winnipeg Transit is proposing improved bus routes in southwest Winnipeg to coincide with the opening of the Southwest Transitway (Stage 2) in spring 2020, subject to Council approval.

You can participate online by reviewing the information about the proposed routes and taking a short survey.
The Ideas in Motion bus will be popping up in communities throughout southwest Winnipeg in early April. Details on pop-ups here.

Learn more at winnipeg.ca/southwestrapidtransitway. Feedback is being collected from March 15 to April 15.

### Ongoing Opportunities for Engagement with the City of Winnipeg

#### Accessible On-Street Parking pilot program and survey

The Winnipeg Parking Authority is holding a pilot program and stakeholder survey to identify on-street parking barriers faced by motorists with accessibility requirements.

The City of Winnipeg is interested in learning more about on-street parking barriers faced by motorists with accessibility requirements. If you are a Society for Manitobans with Disabilities (SMD) parking permit holder, please take five minutes to complete a survey on paid parking needs. Your feedback will assist in determining accessible on-street parking needs in the downtown and the development of a long-term plan to address on-street parking needs. The project team will be collecting feedback until May 31, 2019.
