Accessible On-Street Parking pilot program and survey

The Winnipeg Parking Authority is holding a pilot program and stakeholder survey to identify on-street parking barriers faced by motorists with accessibility requirements.

The City of Winnipeg is interested in learning more about on-street parking barriers faced by motorists with accessibility requirements. If you are a Society for Manitobans with Disabilities (SMD) parking permit holder, please take five minutes to complete a [survey](#) on paid parking needs. Your feedback will assist in determining accessible on-street parking needs in the downtown and the development of a long-term plan to address on-street parking needs. The project team will be collecting feedback until May 31, 2019.
