## **Dublin Avenue Bridge Replacement and Regional Street Improvements**

The City is reaching out to stakeholders in the area to better understand construction impacts, including truck/delivery requirements, and to plan for potential improvements to sidewalks and transit stops.

If you live, work, or travel through the area, review the [project information boards](#) and provide your comments through an online [comment form](#) before May 14, 2019.

## **Accessible On-Street Parking pilot program and survey**

The City of Winnipeg is interested in learning more about on-street parking barriers faced by motorists with accessibility requirements. If you are a Society for Manitobans with Disabilities (SMD) parking permit holder, please take five minutes to complete a [survey](#) on paid parking needs. Your feedback will assist in determining accessible on-street parking needs in the downtown and the development of a long-term plan to address on-street parking needs.
