

## Public Engagement News

We are now resuming some engagement activities and invite you to take part online. We will continue to provide updates and revised timelines once information is available.

### New Opportunities to Get Involved

#### Wellington Crescent Riverbank, Path, and Roadway Project

The City has been investigating how best to protect infrastructure and preserve part of the south bank of the Assiniboine River on Wellington Crescent.

Have your say on the recommended design:

- View the [updated design](#) available on the [Project Design](#) tab.
- Take a short [survey](#).
- Ask the project team a question with the [Question & Answer](#).
- Answer a [quick poll](#).

Visit [winnipeg.ca/wellingtonriverbank](http://winnipeg.ca/wellingtonriverbank) for more information.

#### Soil Fabrication Program

Did you know the City has been reusing street sweepings, biosolids, and wood chips from trees removed with Dutch Elm Disease to make soil for landfill cover as part of a pilot project?

Visit the [Questions & Comments tab](#) to leave comments or ask the project team a question. Check out the [Quick Poll tab](#) to answer a short question and see what other Winnipeggers are thinking.

Visit [winnipeg.ca/soilfabrication](http://winnipeg.ca/soilfabrication) for more information.

#### Crescentwood Heritage Conservation District Nomination

The Crescentwood neighbourhood was nominated for Heritage Conservation District (HCD) designation. Once an area is nominated, an HCD study must be prepared and submitted to demonstrate how the proposed district is architecturally and historically significant and warrants designation. Property owners attended a community meeting on February 26, 2020, and we are building on this meeting through a virtual workshop, accessible on the [Engage Winnipeg webpage](#).

*Note: We are primarily seeking input from property owners, as designation will have the greatest impact on this group. However, we recognize that renters and people who do not live in the area may also have important feedback to share, so those who do not own property in this area may also participate in this workshop.*

## Open Data

The City of Winnipeg wants to continue dialogue with the community beyond the annual Hackathon so we can keep improving the open data portal.

Open data is data that can be freely used, shared and built-on by anyone, anywhere, for any purpose. The City of Winnipeg [Open Data Portal](#) is where the City's open data is stored and available for anyone who wants to use it. We are asking you to get involved in the future of our Open Data Program by [posting your ideas](#).

Learn more at [winnipeg.ca/opendata](http://winnipeg.ca/opendata)

---

**We strive to promote events at least two weeks ahead through other means such as newspaper ads, social media, and direct mail.**
