

Public Engagement News

We are now resuming some engagement activities and invite you to take part online. We will continue to provide updates and revised timelines once information is available.

Ongoing Opportunities to Get Involved

Planning for our shared future: Have your say on the strategy for the sustainable growth of our city

Thank you for all those who attended the virtual events on July 22 and 29. The presentations from both events are [available online under 'Documents'](#).

You can get involved online until August 10.

- [Key info](#)
- [Ask questions](#)
- [Take the OurWinnipeg survey](#)
- [Take the Complete Communities survey](#)
- [Discuss with others on the forum](#): What actions should the City take?
- [Discuss with others on the forum](#): What makes your community complete?

For more information on OurWinnipeg and Complete Communities, and to view the draft documents, please visit winnipeg.ca/ourwinnipeg. To share your thoughts on how Winnipeg's future is envisioned through these initiatives, please visit: winnipeg.ca/ourwinnipeg2045

Soil Fabrication Program

Did you know the City has been reusing street sweepings, biosolids, and wood chips from trees removed with Dutch Elm Disease to make soil for landfill cover as part of a pilot project?

Visit winnipeg.ca/soilfabrication for more information.

Open Data

The City of Winnipeg wants to continue dialogue with the community beyond the annual Hackathon so we can keep improving the [open data portal](#).

Open data is data that can be freely used, shared and built-on by anyone, anywhere, for any purpose. The City of Winnipeg Open Data Portal is where the City's open data is stored and available for anyone who wants to use it. We are asking you to get involved in the future of our Open Data Program by [posting your ideas](#).

Learn more at winnipeg.ca/opendata.

Project Update

Lord Roberts Community Traffic Study

The project team has been working on developing solution options to address the four [priority areas](#) identified by the community and through the traffic [data collected](#) in the area. We have had several meetings with the Public Advisory Committee to discuss options and will continue to work on solution options for community input this fall.

There is an opportunity to improve existing pedestrian infrastructure within the neighbourhood this summer by completing some gaps in the sidewalk network (as part of the Pedestrian and Cycling Infrastructure priority area).

To learn more, visit: winnipeg.ca/lordrobertstraffic

We strive to promote events at least two weeks ahead through other means such as newspaper ads, social media, and direct mail.
