

Parking Signs Pilot

Easier to read parking signs is better for drivers and businesses, and helps to reduce congestion. That's why we are trying out a few different approaches to improve parking signs to make it easier to understand where and when you can park.

The intent of the pilot is to improve parking signs on the following street segments in the Exchange District:

1. Bannatyne Avenue between Main Street and Waterfront Drive
2. King Street between Notre Dame Avenue and William Avenue
3. Arthur Street Between Bannatyne Avenue and Notre Dame Avenue

Tell us what you think of the pilot parking signs and revised parking guides. The [survey](#) is available until March 21, 2022.

Police Funding Model

Last chance to take the Police Funding Model [survey](#)!

Thank you to all who attended one of the five public events and the telephone town hall. If you were unable to attend, we encourage you to view the [presentation](#) on the [project webpage](#) and provide your comments through the [survey](#). The [survey](#) will remain open until February 2, 2022.

The City of Winnipeg is considering a Winnipeg Police Service (WPS) funding model that ensures planning certainty for the City and sustainable and predictable funding for the WPS. There are five model options that are being considered. Your feedback on the police funding models will be one input Councillors will consider when they are making the decision on the proposed police funding model.

For more information, visit winnipeg.ca/policefundingmodel.

Responsible Pet Ownership By-law Review

Based on feedback from the first phase, it was determined that additional engagement was required on exotic animals and breed-specific legislation. Take the [survey](#) to share your thoughts on criteria and approaches to regulating exotic animals in Winnipeg, as well as urban chicken keeping and breed-specific legislation.

The [survey](#) is available until February 13, 2022.

The Responsible Pet Ownership By-Law regulates the presence of wild and domesticated animals within Winnipeg, their activities, and the activities of their owners. Since the by-law came into force in 2013, opportunities have been identified to strengthen it to improve the safety of both pets and the community. Best practices in animal control and welfare have also evolved since the last review.

For more information, visit winnipeg.ca/RPObylaw.

We strive to promote public events at least two weeks ahead through other means such as newspaper ads, social media, and direct mail.
