

Winnipeg Recycling Strategy for Apartments and Condos

The City is committed to reducing the amount of waste going into our landfills and doing its part to help fight climate change. One way to do this is by making recycling easier and more convenient for residents who live in apartments and condos. We're developing a Recycling Strategy for Apartments and Condos that will recommend ways to keep more waste out of our landfill.

We are looking for input from **residents who live in multi-family dwellings such as apartments and condos** on what programs and services you currently use, what barriers and challenges you currently experience, and what would make recycling easier and more convenient for you.

- Take the [survey](#) until May 8, 2022.
- Attend an [online open house](#) Wednesday, April 27, 2022 from 7 p.m. to 8 p.m.
- Attend an [online open house](#) Thursday, April 28, 2022 from 3 p.m. to 4 p.m.

Moving on Marion

The Marion Street corridor is a major route, connecting neighbourhoods and transporting people, goods, and services. The City of Winnipeg is undertaking the functional design phase of the Moving on Marion, which aims to determine how to improve roadway, traffic flow, safety, and livability aspects of Marion Street from St. Mary's Road to Lagimodière Boulevard, and Lagimodière, from Marion to Dugald Road.

Thank you to all who attended the public events earlier this month. The [survey](#) will remain open until April 28, 2022.

We want your input on features that could enhance neighbourhood vibrance and livability along the west section, new cycling infrastructure, and improvements to the Youville-Marion-Goulet intersection.

For more information, visit winnipeg.ca/movingonmarion.

We strive to promote public events at least two weeks ahead through other means such as newspaper ads, social media, and direct mail.
