

McKITTRICK PARK AND FORT ROUGE LEISURE CENTRE GREEN SPACE IMPROVEMENTS

Welcome to the McKittrick Park and Fort Rouge Leisure Centre Green Space Improvements.

The City of Winnipeg is seeking public feedback on concept plans for green space improvements at McKittrick Park and the Fort Rouge Leisure Centre site's northeast corner. These concept plans feature a number of improvements to the swing sets, pathways, and park benches. The City is asking the community to share their vision for the site to ensure that the proposed concept plans meet residents' visions and needs for the area.

Approximately \$200,000 is available through the City's Parks and Recreation Enhancement Fund (PREP) for the improvements. Construction and renewal is expected to begin in late summer / fall of 2017.

Please feel free to explore the presentation boards, ask questions, and provide your feedback on the Survey Form. Responses gathered today will help shape this project.

Thank you for your time and attendance.

McKITTRICK PARK EXISTING CONDITIONS

new wading pool slide

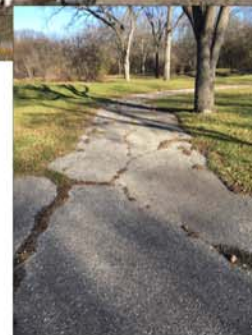

play equipment in good condition

climbers in poor condition

asphalt pathway in poor condition

benches in poor condition

McKITTRICK PARK CONCEPT PLAN

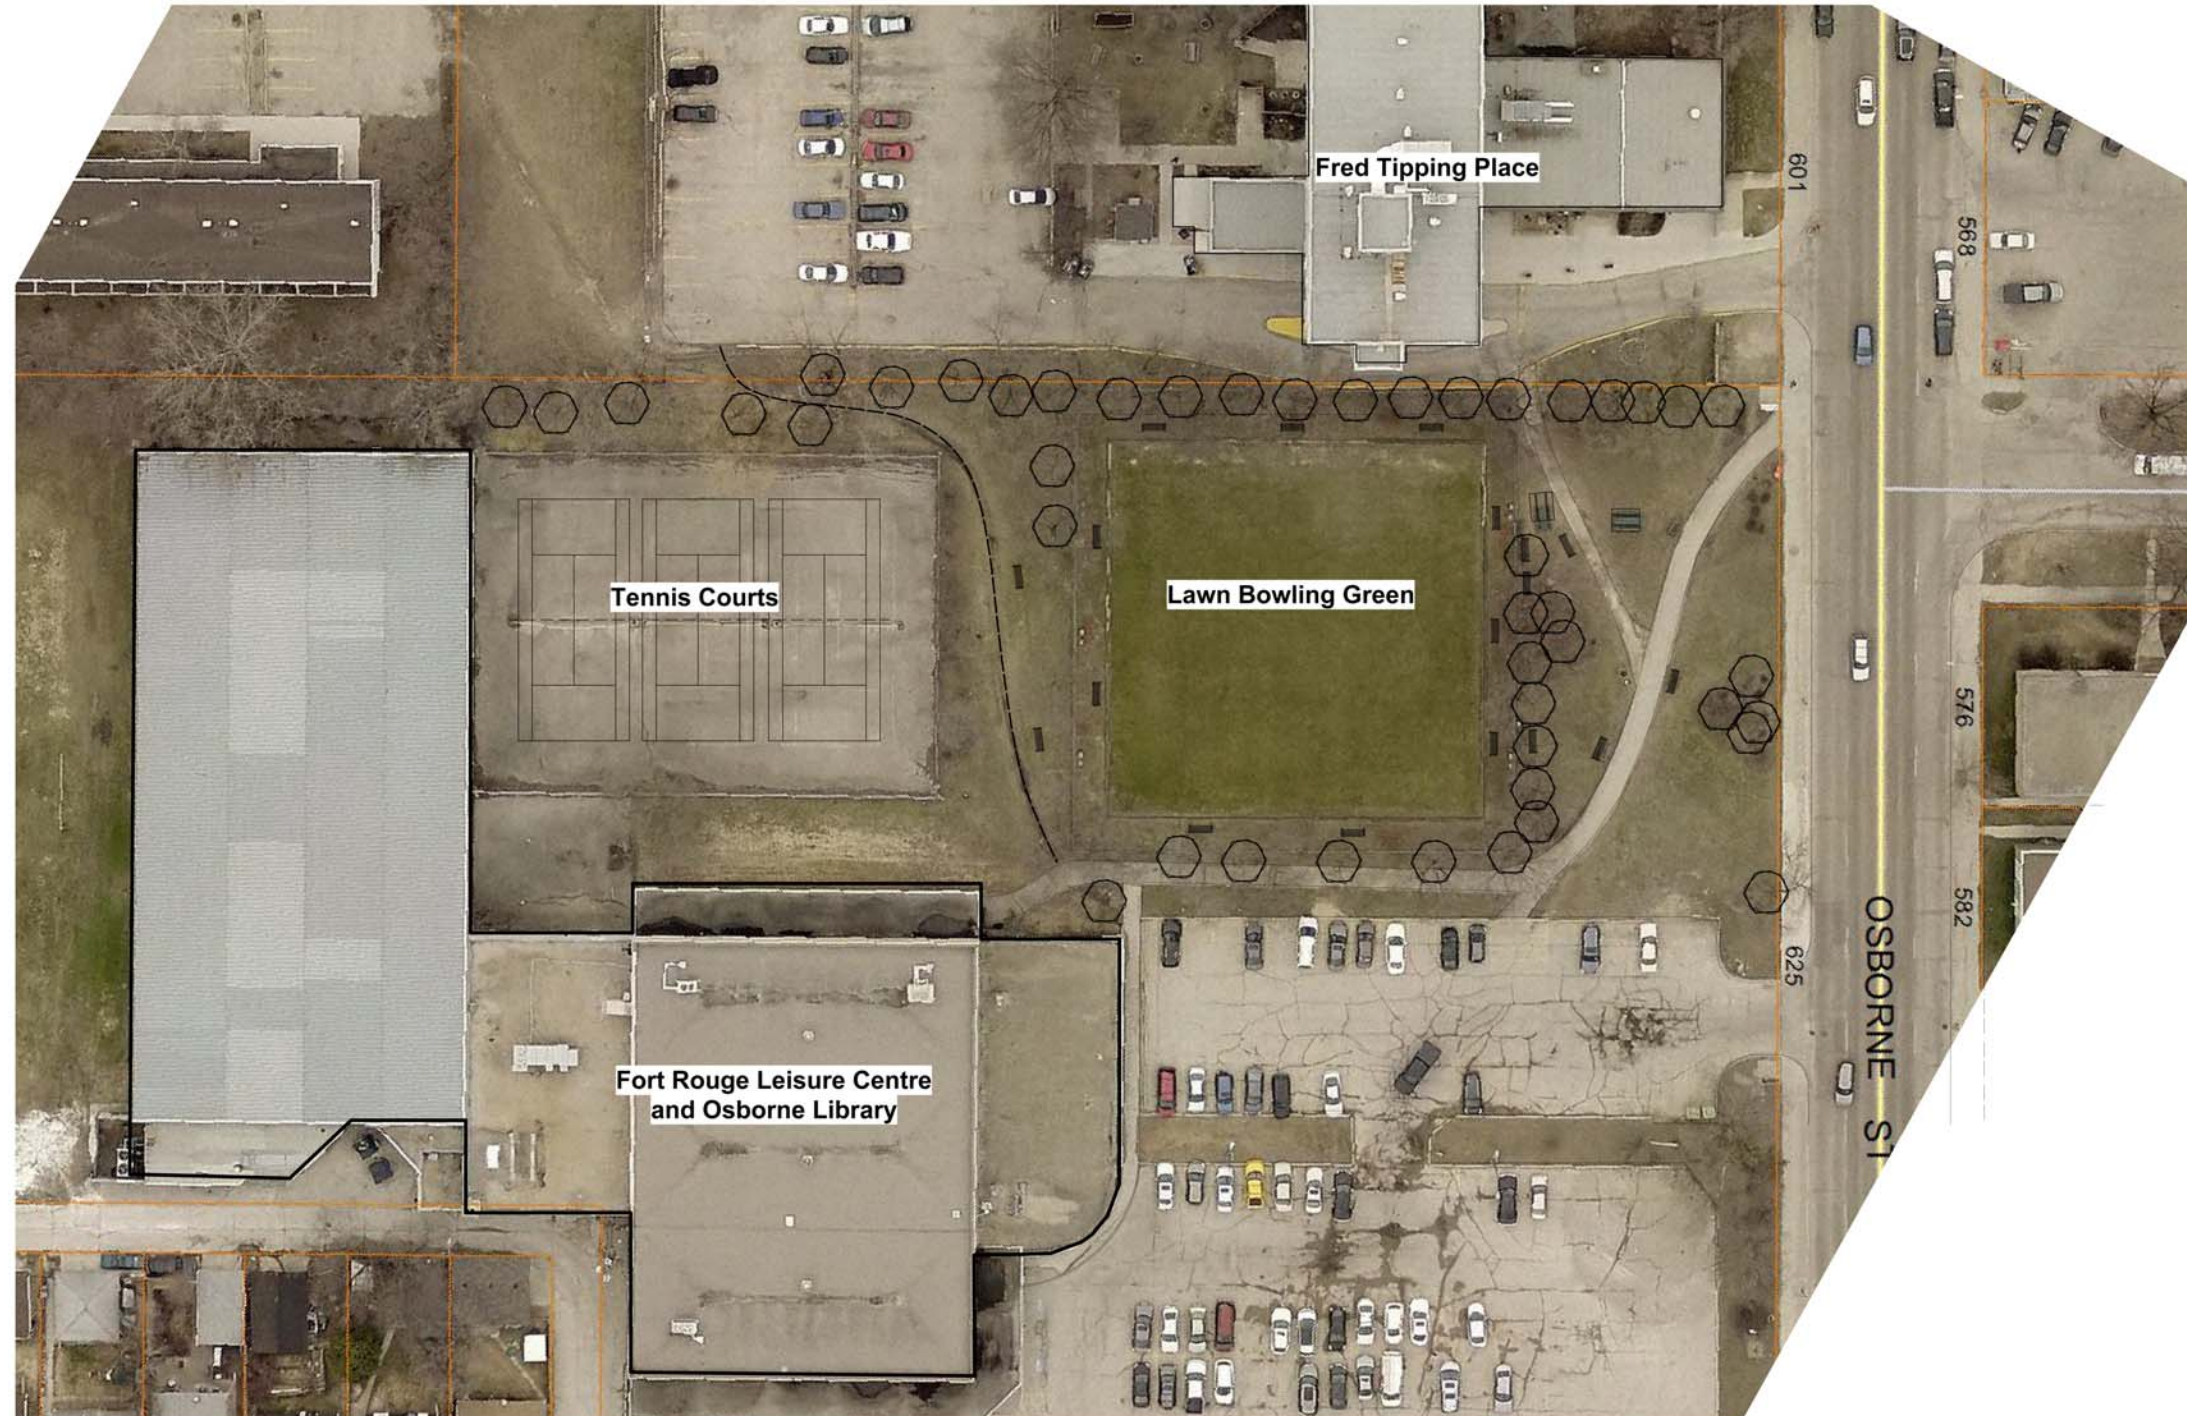

new swingsets, including an accessible swingseat

replace existing asphalt pathway, add bike signs

FORT ROUGE LEISURE CENTRE EXISTING CONDITIONS
