Background and Objectives

Project Background

- Historically this study has been used as a tool for measuring the level of satisfaction of the citizen’s of Winnipeg.
- The City of Winnipeg has conducted this study annually since 2001.

Project Objectives

1. Determine Winnipeg citizen’s levels of satisfaction regarding their city
2. Determine Winnipeg citizen’s current needs in their city
   - Gauge how those needs have changed and where they are heading
     - e.g. Are specific issues trending downward or emerging?
Methodology

A total of 600 Winnipeg citizens aged 18 years and over were interviewed by telephone between May 2 to May 19, 2022. The sample include both landlines and cell phone numbers. The final results in this survey are weighted by age, gender, and the area of Winnipeg respondents reside in according to 2016 Statistics Canada census data.

The margin-of-error for this telephone survey of 600 adults is +/- 4.0%, 19 times out of 20. The margin-of-error is higher for sub-populations analyzed in these results.

Where applicable, this report compares the results of the 2022 survey with the results of previous citizen satisfaction surveys conducted in 2018 to 2021.

Notes:
• Data presented is based on people who answered the survey questions (excludes “don’t know/refused” response).
• The percentages shown in this report may not add up to exactly 100%, due to rounding.
• Values less than 3% may not be shown in charts.
Demographics [1/2]

The majority of respondents are under 55 years old and nearly three-quarters are home owners.

Q73 -- What age are you? (Base: All respondents. 2022 n=600) - unweighted
Q74 -- Do you rent or own your home? (Base: All respondents (excluding Don’t know/Refused). 2022 n=586) - unweighted
The majority of respondents have some post-secondary education with 53% having a university degree. Of the 81% of residents who answered the income question, 7 in 10 have a household income of $60,000 or more.
Where do they live?

Downtown 10%
East/Southeast 38%
West/Southwest 38%
North 14%

Inner City 25%
Outer City 75%

Area of Winnipeg

Q78 – First three characters of postal code. (Base: All respondents (excluding Don’t know/Refused). 2022 n=595) – unweighted
How do they describe their Ethnic Origin?

Over two-thirds of survey respondents described their ethnic origin as white/Caucasian.

Ethnic Origin

- White/Caucasian (e.g., European): 71%
- Indigenous or Aboriginal: 11%
- South Asian (e.g., East Indian, Pakistani): 6%
- Black (e.g., African): 4%
- Filipino: 3%
- Southeast Asian (e.g., Vietnamese): 3%
- Latin American: 2%
- Chinese: 1%
- West Asian (e.g., Iranian): 1%
- Arab (e.g., Saudi, Egyptian): 1%
- Other: 1%

Q77 -- How would you describe your ethnic background? Multiple responses allowed (Base: All respondents (excluding Don’t know/Refused). 2022 n=578) -- unweighted

Q63 -- Have you applied for a building permit in the past year? ((excluding Don’t know/Refused). 2022 n=599)
Key Findings

• The majority of Winnipeggers (88%, similar to 2021) rate the overall quality of life in the City as very good or good, but is also the lowest in the past five years.

• Most quality of life indicators are down from 2021, although just by a few percent.

• The most common actions cited to improve the quality of life in Winnipeg are related to roads/infrastructure (58%), followed by housing/social programs (23%) and improved services (23%). Compared to 2021, the biggest changes were in roads/infrastructure (up from 23% to 58%) and crime policing (down from 23% to 14%).

• Just about one in five citizens (21%) are promoters of the City of Winnipeg, but the overall 2022 Net Promoter Score sits at -14, which is down significantly from 2021 (+1) and the lowest in the past five years.
Key Findings

VALUE FOR TAX DOLLARS

• 59% of citizens feel that they receive good or very good value for their property tax dollars. This is down from 64% in 2021 and the lowest in the past five years.

• The most common reasons for finding good value for property tax dollars are general satisfaction with the city (47%), satisfaction with snow clearing (15%), and satisfaction with roads (12%).

• The most common reasons finding poor value for property tax dollars are dissatisfaction with roads (45%), dissatisfaction with taxes (16%), dissatisfaction with city spending (13%), and dissatisfaction with city administration (12%).

CUSTOMER SERVICE

• 58% of Winnipeggers contacted the City in the past year, most commonly by phone (82%), although phone rates have been declining over time, offset by increases in email and online forms.

• Satisfaction with customer service remains high at 73%, but is the lowest over the past five years. Satisfaction is also much lower for those who contact by email or online than by phone.

• The majority of Winnipeggers (89%) agree that city staff are courteous, helpful, and knowledgeable, while fewer (49%) agree that City staff are easy to get a hold of when they need them; however, ratings of customer service are lower than previous five years.
Key Findings

CITY SERVICES

• Overall satisfaction with city services is high at 81%; however, is the lowest proportion in past five years.

• Public Safety remains the most important service area, although the gap between it and Infrastructure closed significantly.

• Satisfaction with city services remains high for the majority of services; however, most services saw a decrease in satisfaction from 2021, with many decreasing by more than 10%.

• Only one individual city service received at least 90% satisfaction rating in 2022 – condition of major parks (90%).

• Individual city services that received under 50% satisfaction ratings:
  • Funding for improving inner city housing (49% - down 4%)
  • Condition of major streets (41% - down 20%)
  • Condition of residential streets in your neighbourhood (39% - down 12%)
