16	04	299	Dr. Susan Braedley published a study entitled “Promising practices in Emergency Medical Response at Fire/ Rescue Services; Lessons from Winnipeg” on July 23rd 2015. The study was supported by an SSHRC grant. My questions as follows, SSHRC grants encourage participation by a “partner organization” defined as follows: Partner organization: “A partner organization participates actively in a formal partnership and contributes in a meaningful way to the success of the endeavour. A partner organization may be, for example, a Canadian or foreign: postsecondary institution, government department (federal, provincial, territorial, municipal), for-profit or not-for-profit organization, or foundation. Partner organizations are required, for administrative purposes, to identify an individual who will act as a contact person. A partner organization is expected to support the activities of the formal partnership by sharing in intellectual leadership or providing expertise. The partner organization is also expected to provide cash and/or in-kind contributions.” Was the WFPS a “partner organization” as described	Fire Paramedic Service				X	1-Apr-16
