Re: Your request for access to information under Part 2 of The *Freedom of Information and Protection of Privacy Act*: Request Numbers 17 10 798.

[redacted]

On September 18, 2017 the City of Winnipeg received your request for access to the following records:

> *1. Provide the contractor's 2012 implementation plans required as a condition of payment for RFP 943-2011, under DI0.1 and DI0.2 (a - h).*
>
> *2. Provide the 2012 verification error results report of the Cart Inventory File performed by City of Winnipeg IT staff under D16.2 's Payment Schedule of RFP 943 2011.*
>
> *3. Provide the late 2012 or early 2013 verification report under RFP 943 2011, E8.8 that would list and tie the RFID visual serial number and GPS location of each Cart distributed to the appropriate address to which it was distributed.*
>
> *4. Provide an August or September, 2017 summary report of the cart's model numbers, size and colour distributed by the contractor under D4.1 of RFP 943 2011.*
>
> *These records are not e mails but reports and plans and summary lists required by the RFP in order for payments to take place.*

I am pleased to inform you that your request for access to the requested records has been granted in part. Access decisions will follow below.

113-1199 Pacific Ave • Winnipeg • Manitoba R3E 3S8
fax/télec. (204) 986-7550 • www.winnipeg.ca

Your first request for "... the contractor's 2012 implementation plans required as a condition of payment for RFP 943-2011, under DI0.1 and DI0.2 (a - h)" is refused.

On November 24, 2017, I wrote to you advising that the records you requested may contain information the disclosure of which might affect the business interests of a third party. I also advised that the third party was given an opportunity to make representations to me about disclosure of the records. Please be advised that the third party submitted written representations objecting to the disclosure of the records.

After considering the response of the third party and all relevant circumstances, it was determined that the information contains the financial information of third party businesses and is therefore subject to mandatory exceptions to disclosure. Access to these records is therefore refused as per subsection 18(1)(c)(i) of the act.

> **Disclosure harmful to a third party's business interests**
>
> 18(1) The head of a public body shall refuse to disclose to an applicant information that would reveal
>
> (c) commercial, financial, labour relations, scientific or technical information the disclosure of which could reasonably be expected to
>
> (i) harm the competitive position of a third party,

The records requested contain commercial data and capacity information in relation to the third party's method of cart implementation. Granting access to this information could cause harm to their competitive position as it is intended to be confidential and only meant to be seen by their customers to facilitate implementation.

The second part of your request was for *"... the 2012 verification error results report of the Cart Inventory File performed by City of Winnipeg IT staff under D16.2 's Payment Schedule of RFP 943 2011."* The Responsive Record was found to be an email containing the initial analysis of the inventory file. Your request for access to the email and attachments (594 pages) has been granted in part. The home addresses of the cart locations have been redacted as per subsection 17(3)(i) of the Act. As required by section 7(2) of the *Act*, we have severed information that is excepted from disclosure and have provided you with as much information as possible.

17(3) In determining under subsection (1) whether a disclosure of personal information not described in subsection (2) would unreasonably invade a third party's privacy, the head of a public body shall consider all the relevant circumstances including, but not limited to, whether

(i) the disclosure would be inconsistent with the purpose for which the personal information was obtained.

As per our phone conversation of November 6, 2017 you abandoned your request for:

> *the late 2012 or early 2013 verification report under RFP 943 2011, E8.8 that would list and tie the RFID visual serial number and GPS location of each Cart distributed to the appropriate address to which it was distributed.*

Finally, you have requested access to a "summary report of the cart's model numbers, size and colour distributed by the contractor under D4.1 of RFP 943 2011." The information that you requested is not found in a record, but by creating a record as per subsection 10(2) of FIPPA, we have produced a list with the information that you are looking for. Access to the list is granted in full and it is enclosed.

Creating a record in the form requested

10(2) If a record exists but is not in the form requested by the applicant, the head of the public body may create a record in the form requested if the head is of the opinion that it would be simpler or less costly for the public body to do so.

Subsection 59(1) of The *Freedom of Information and Protection of Privacy Act* provides that you may make a complaint about our decision respecting your request for access to the Manitoba Ombudsman. You have 60 days from the receipt of this letter to make a complaint on the prescribed form to:

Manitoba Ombudsman
750 - 500 Portage Avenue
Winnipeg MB R3C 3X1
204-982-9130
1-800-665-0531

If you have any questions, please contact the undersigned at (204) 986-5556, or by mail.

Sincerely,

Allan Neyedly
Records and Information Management Coordinator

Hello,

This email contains our analysis of the data provided by IPL following the cart delivery.
We have run several tests on the data in order to check the quality of the serial numbers, RFID numbers. At this time Emterra has not provided data on the address accuracy of the data.
All the data analysis has been run on data provided on November 7, 2012. Future verification will be run on the latest data.

I have attached 7 files:

1. **CartErrorsSerialNumbersCorrupt_20121127.xls**
   This query tested whether the serials met the correct format. It also captures carts where the serial is missing completely. Correct serials have 10 digits with the first 4 digits encoding data about the cart and the last 6 digits being a sequentially assigned number indicating the cart's order of production.

   We are aware that the Schaefer carts were unable to have 10 digits, so the sequential part is limited to 5 digits. This is acceptable and will not be considered an error. However the stickers were not printed properly for the Schaefer carts, leading to a systematic error in every serial that requires fixing if it has not be fixed since November 7th.

   This file has been sorted by serial for easier manual identification of error types. Most of the errors are for the Schaefer carts. The other errors (truncated, manual mistakes like including the # sign), should be fixed by IPL, or the city can fix at IPL's cost.
   Note that in the case of truncations there are hundreds of carts that were delivered as the wrong type. I would expect that some of the truncated serials have been delivered as the wrong type and thus care needs to be taken I fixing the truncations, they should not be fixed without checking the other carts at the residence to ensure carts were marked with the correct cart type.

   Errors which cannot be fixed from the office are in cells 2-7, and 20722 – 24125. In total 3411 bad serials (Missing or Corrupt).
   Please inform me when these corrections are complete

2. **CartErrorsSerialNumbersInconsistentType_20121127.xls**

1

A query was run to compare the type of the cart (as determined by the serial number) to the type that is shown in the Bin Type field. In most cases these are errors caused by improper delivery order or selection in the scanner. These errors can be fixed in the office by IPL if it appears that the types were just reversed.
Note that not all cases are simple reversals.
I have highlighted addresses without duplicates. These must are not simple swaps and should be given more scrutiny.

3. **CartErrorsSerialNumbersInconsistentSize_20121127.xls**
   In most cases these are flipped at an address, however IPL must fix these errors and ensure that what was requested for delivery matches what was delivered. An example an apparent delivery error would be 17(3)(i) 17(3)(i) that address was supposed to get 8 x 360 carts (4 of each type), but actually received 8 x 240 carts. In cases like this the data is bad and the delivery is also bad (resident doesn't have service they should have because volume of carts is 50% short). These must be fixed.
   I have highlighted addresses without duplicates. These must are not simple swaps and should be given more scrutiny.

4. **CartErrorsSerialNumbersDuplicates_20121127.xls**
   This file contains a list of all duplicated serials. There are over 500 duplicates affecting over 1000 records. Our IT will be making a comparison with our records for carts recovered or exchanged which may lower this number somewhat.

5. **CartErrorsRFIdDuplicates_20121127.xls**
   This query looked for duplicates in the RFIDs. I noticed one RFID (3005FB63AC1F3841EC880467) at 5 locations. 916 records affected are.

6. **CartErrorsRFIdCorrupt_20121127.xls.**
   Query to find RFIDs not conforming to expected format (24 digit, HEX). Only one record was found to be bad (too many digits).

7. **CartErrorsRFIdMissing_20121127.xls**
   We found 2977 Records with missing RFID. Most of these likely show up in the file above of corrupt serials as most of the missing RFIDs are also missing the serial.
   About 60 are unique to this list with a serial but no RFID.

In all there are over 20,000 affected records. Once the Schaefer serials are fixed there are still somewhere in the range of 5000+ affected records or roughly 1.5%. This is far greater than the requirement for the contract.

Please let me know when IPL believe these records have been resolved.

We must have a discussion on how we can manage the changes that IPL must make to the data, since we now maintain the active Innovadel database and must work with the data on a regular basis Monday - Friday. I don't want to waste anyone's time with data merge issues.
