Re: Your request for access to information under Part 2 of *The Freedom of Information and Protection of Privacy Act*: Request Number **18 08 762**

[redacted]

On August 27, 2018, the City of Winnipeg City Clerk's Department received your request for access to the following records:

> *Please provide list of all Designated Construction Zones (DCZ) that have been installed by City of Winnipeg crews and list of all approved applications/installations for optional DCZ's approved by the traffic management branch.*

I am pleased to inform you that your request for access to a; *list of all Designated Construction Zones (DCZ) that have been installed by City of Winnipeg crews* has been granted in part.

Please find enclosed, the Public Works Department Transportation Division Traffic Management Branch Designated Construction Zone Work Orders from September 2016 to present. Additionally, in the spirit of *The Act*, beginning September 2015, the City of Winnipeg began providing a list of records released proactively and through responses to requests made through *The Freedom of Information and Protection of Privacy Act*.

Section 76(1) of *The Freedom of Information and Protection of Privacy Act* provides:

> **Records available without an application**
>
> 76(1) The head of a public body may specify records or categories of records that are in the custody or under the control of the public body and that are available to the public without an application for access under this Act.

A portion of the information that you have requested has been made available by 'routine disclosure' to the public and it is not necessary to make an application under *The Freedom of Information and Protection of Privacy Act* for it. Subsection 6(2) of the Act provides:

Part does not apply to publicly available information

6(2) This Part does not apply to information that is available to the public free of charge or for purchase.

Please reference the Public Works Department Traffic Management Branch Designated Construction Zone Work Orders May 1 2014 to August 20, 2015, and Designated Construction Zone Work Orders dated January to August 2016 which have been made available to the public and can be found on the City of Winnipeg's "Access to Information" website, under "Released Records" available here: https://winnipeg.ca/clerks/fippa/records/DesignatedConstZoneWorkOrders_May1-Dec20-2014.pdf and here: https://winnipeg.ca/clerks/fippa/pdfs/released/DesignateedConstructionZoneWOs.pdf

Access to a portion of the enclosed Work Orders are refused, as the records contain information that falls within the following exception to disclosure in *The Freedom of Information and Protection of Privacy Act* – Section 25(1)(e):

Disclosure harmful to law enforcement or legal proceedings

25(1) The head of a public body may refuse to disclose information to an applicant if disclosure could reasonably be expected to

(e) endanger the life or safety of a law enforcement officer or any other person;

Under Section 25(1)(e) of *The Freedom of Information and Protection of Privacy Act*, the name of a member of the Winnipeg Police Service have been exempted from disclosure.

As required by subsection 7(2) of *The Act*, we have severed information that is protected from disclosure and have provided you with as much information as possible.

7(2) - The right of access to a record does not extend to information that is excepted from disclosure under Division 3 or 4 of this Part, but if that information can reasonably be severed from the record, an applicant has a right of access to the remainder of the record.

As you requested a copy of these records, and as they can be reasonably reproduced, in accordance with clause 14(1)(a) of The *Freedom of Information and Protection of Privacy Act,* a copy of the records is enclosed.

14(1) - Subject to subsection 7(2), the right of access is met under this Part

(a) if the applicant has asked for a copy and the record can reasonably be reproduced, by giving the applicant a copy of the record.

The Traffic Management Branch work orders do not specify if a DCZ was optional. Therefore, in response to the second part of your request for access to a; *list of all approved applications/installations for optional DCZ's approved by the traffic management*

branch, no records exists.

This portion of your request for access is therefore refused under paragraph 12(1)(c)(i) of *The Freedom of Information and Protection of Privacy Act,* as records do not exist.

> **12(1)** - In a response under section 11, the head of the public body shall inform the applicant
>
> **(c)** if access to the record or part of the record is refused,
>
> **(i)** in the case of a record that does not exist or cannot be located, that the record does not exist or cannot be located

Subsection 59(1) of The *Freedom of Information and Protection of Privacy Act* provides that you may make a complaint to the Manitoba Ombudsman about this decision.

You have 60 days from the receipt of this letter to make a complaint on the prescribed form to:

Manitoba Ombudsman
750 – 500 Portage Avenue
Winnipeg, MB R3C 3X1
(204) 982-9130 or 1-800-665-0531

If you have any questions, please contact me at (204) 986-3041, by email at ssmith@winnipeg.ca, or by mail at the address below.

Sincerely,

Shelly Smith
Records and Information Management Coordinator

Work Order # 16432

THE CITY OF WINNIPEG
PUBLIC WORKS DEPARTMENT
TRAFFIC MANAGEMENT BRANCH

TRAFFIC INVESTIGATION

Request Submitted By: DYLAN MOURANT/STANTEC
Address: 500-311 PORTAGE AVE.
Phone Number: 204-489-5900
Date Received: 7/19/2017
Location: BROOKSIDE BLVD. S/B MOLLARD RD. TO INKSTER BLVD.

Request/Problem Statement:

On March 19, 2008 Council delegated authority to set speed limits in construction zones to the Director of Public Works. Southbound Brookside Blvd. is having pavement renewals and asphalt overlay work performed. Lowering the speed limit in the construction zone area to 60 km/h is appropriate based on the length of the construction zone, the proximity of workers to open traffic lanes, single lane traffic flow, the presence of construction equipment and the proximity of open traffic lanes to excavations.

Evaluation:

Install signs as per Work Order #16432

To be signed consistent with the requirements for a Designated Construction Zone.

Action/Regulation: As per other side

Work Order # 16481

THE CITY OF WINNIPEG
PUBLIC WORKS DEPARTMENT
TRAFFIC MANAGEMENT BRANCH

TRAFFIC INVESTIGATION

Request Submitted By: Ralph Sjodin
Address: 104-1155 Pacific Ave.
Phone Number: 204-794-4346
Date Received: 8/31/2017
Location: McGillivray Blvd W/B Waverley St. to Kenaston Blvd.

Request/Problem Statement:

On March 19, 2008 Council delegated authority to set speed limits in construction zones to the Director of Public Works. Westbound McGillivray Blvd. is having road repair operations performed. Lowering the speed limit in the construction zone area to 60 km/h is appropriate based on the length of the construction zone, the proximity of workers to open traffic lanes, single lane traffic flow, and the presence of construction equipment.

Evaluation:

Install signs as per Work Order # 16481

To be signed consistent with the requirements for a Designated Construction Zone.

See attached DCZ request form.

Action/Regulation: As per other side

THE CITY OF WINNIPEG
PUBLIC WORKS DEPARTMENT
TRAFFIC MANAGEMENT BRANCH

TRAFFIC INVESTIGATION

Request Submitted By: Dylan Mourant
Address: 500-311 Portage Ave.
Phone Number: 204-489-5900
Date Received: 9/1/2017

Location: Lagimodiere Blvd — Sage Creek Blvd. to Bishop Grandin Blvd

Request/Problem Statement:

On March 19, 2008 Council delegated authority to set speed limits in construction zones to the Director of Public Works. Lagimodiere Blvd. is having turn lane construction performed. Lowering the speed limit in the construction zone area to 60 km/h is appropriate based on the length of the construction zone, the proximity of workers to open traffic lanes, single lane traffic flow, temporary left turn accomodation and the presence of construction equipment.

Evaluation:

Install signs as per Work Order # 16483

To be signed consistent with the requirements for a Designated Construction Zone.

See attached DCZ request form.

Designated Construction Zone and/or Speed Limit Reduction Request Form

Project			
Date Submitted	4/18/2018		
Street Name	Fermor Avenue (Eastbound and Westbound)	Posted Speed	70 km/h
Cross Streets (Start/End)	250 m west of St. Anne's Road to Archibald Street		
Project Duration	May 2018-October 2019		
Description of Work	Fermor Avenue Bridge over Seine River Rehabilitation and Pedestrian-Cyclist Underpass Structure, including concrete and asphalt road reconstruction/rehabilitation including a new Alpine Access, paved asphalt shoulder, and SB Archibald to WB Fermor Avenue acceleration lane extension.		

Applicant			
Company	Dillon Consulting Limited	Name	Dalene Nhem
Address	1558 Willson Place		
Phone	204-791-2978	Email	Dnhem@dillon.ca
Contractor *(if different than above)*			
Company	M.D. Steele Construction Ltd.	Name	Tanya Worms
Address	193 Henlow Bay		
Phone	204-488-7070	Email	tworms@mdsteele.mb.ca

Details of Work
What areas of the street will be affected by the work zone construction area? (travel lane(s), shoulder, sidewalk, median or ditch) Please specify.
All Fermor Avenue travel lanes (curb lane, median lanes) in the WB and EB direction Fermor Avenue 250m west of St. Anne's to Archibald will be affected: One lane closure each direction from west of underpass to east of bridge. EB left turn lane prohibited at Fermor/St. Anne's. WB Fermor left turn lane prohibited at Alpine Avenue. SB Archibald Right turn lane to WB Fermor Avenue modified to stop condition. (will monitor during construction, if changing to yield condition is viable) St. Anne's NB and SB direction, including all right-turn movements in at the Fermor/St. Anne's intersection will be affected at certain phases of the projects to a full concrete road construction. Interim single lane closure will be required during construction.
Will the construction area limits change as work progresses? If yes, describe.
The construction area limits will not change, but certain sections within the project construction limits will shift, depending on the type of road/bridge work that is being undertaken.
Will temporary traffic control be removed at the end of each work day?
No, temporary traffic control will be throughout the construction season, however traffic patterns will be back to normal during winter shut down (October 2018 to April 2019)
What physical hazards will be present to the motorist when workers are not present?
Polyposts, sand barrels, channelization barrels, precast concrete barriers, etc. will be present. Traffic signal bases will be on break away bases and MB Hydro relay boxes will be within a 1.0m +/- of the road edge and will be delineated, however motorist should remain cautious.
What will be the typical hours of work?

7 am – 7pm			
Additional Comments:			
DCZ to be removed for Winter months			
C.O.W. Use ONLY

INSTRUCTION TO SUPERINTENDENT

Location and Work:
Fermor Avenue EB & WB — 250 m west of St. Anne's Road to Archibald Street

TEMPORARILY REMOVE:
"Maximum 70 km/h"

TEMPORARILY INSTALL and MAINTAIN:
"Maximum 60 km/h"

Notes:
*Note: Limits of the reduced speed zone to be adjusted on site in consideration of the limits of construction. The 'Maximum 60 km/h' zone is to be in effect while road work is present on Fermor Ave. At the end of construction the temporary traffic control will be removed and the 'Maximum 70km/h' reinstated as applicable. Record all dates on attached Field Notes page including initial install, shifts, inspections, maintenance and removal.

Temporary traffic control will be throughout the construction season, however traffic patterns will be back to normal during winter shut down (October 2018 to April 2019)

Work Order # 16758

THE CITY OF WINNIPEG
PUBLIC WORKS DEPARTMENT
TRAFFIC MANAGEMENT BRANCH

TRAFFIC INVESTIGATION

Request Submitted By: Dillon Consulting Limited/Dalene Nhem
Address: 1558 Willson Place
Phone Number: 204-791-2978
Date Received: 4/18/2018

Location: Fermor Avenue EB & WB 250 m west of St. Anne's Road to Archibald Street

Request/Problem Statement:

On March 19, 2008 Council delegated authority to set speed limits in construction zones to the Director of Public Works. Fermor Ave. is having road work done in both directions. Lowering the speed limit in the construction zone area to 60 km/h is appropriate based on the length of the construction zone, and the presence of construction equipment and workers.

Evaluation:

Install signs as per Work Order # 16758

To be signed consistent with the requirements for a Designated Construction Zone.

See attached DCZ request form.

Action/Regulation: As per other side
