

**PART E**  
**SPECIFICATIONS**

## **PART E - SPECIFICATIONS**

### **GENERAL**

#### **E1. GENERAL**

E1.1 These Specifications shall apply to the Work.

#### **E2. GOODS**

E2.1 The Contractor shall supply Instant Recall Recorders in accordance with the requirements hereinafter specified.

E2.2 These devices are to be used by the telephone and radio operators to record and playback telephone or radio transmissions from their operating positions. An operator may play back the recorded message to review call details or to determine information that may have been unintelligible or missed

E2.3 The Instant Recall Recorder must be capable of simultaneous record and playback. The recorder shall allow the operator to review a message while a new one is being recorded.

E2.4 The Instant Recall Recorders shall be capable of recording from two separate audio sources. The intent is to record both the telephone and the radio calls at each dispatcher position. The offerer shall describe this function and detail if both channels can be recorded simultaneously or if priority can be assigned to one input.

E2.5 These devices should be desktop mounted. Stand alone software based Instant Recall Recorders designed to run on a Windows™ based computer will not be considered unless they are part of a complete audio logging system.

E2.6 A minimum of 1 hour of audio storage shall be provided. The offerer should describe alternative memory options or expansion capabilities and provide pricing for these options on the Form B. These optional prices will not be part of the evaluation and shall not be included in the Total Bid Price submitted.

E2.7 A large, easy to read display should be provided. The display should clearly indicate the time, operating mode, ANI/CLID information. The offerer shall describe the display and the indicators available.

E2.8 The Instant Recall Recorder units should decode and display incoming and outgoing DTMF digits.

E2.9 The Instant Recall Recorder units should provide both an internal speaker and headphone jacks.

E2.10 Each message shall be date and time stamped.

E2.11 Recording activation should be programmable and selectable from either VOX, On/Off-hook or contact switch. Offerer shall describe the recording activation methods and the method of selecting the method.

#### **E3. DELIVERY**

E3.1 Goods shall be delivered within thirty (30) Calendar Days of the award of Contract, f.o.b. destination, freight prepaid.

E3.2 Goods shall be delivered between 8:30 a.m. and 4:30 p.m. on Business Days.
