Asbestos Response Guide

What should I do if I suspect the work I am doing will disturb Asbestos Containing Material (ACM)?

- ▶ Follow the Safe Work Procedure for your job/task.
- ▶ If you are not sure of the Safe Work Procedure for your job/task, ask your supervisor.

What should I do if I suspect there is damaged asbestos in my area of work? (i.e., disturbed coating on wrapped pipes or boilers)

- ▶ **Stop work immediately.**
- ▶ **Do not attempt to clean up.**
- ▶ **Secure the area.** Don't let anybody in.
- ▶ Leave all tools and equipment on site. Lock the doors (if possible).
- ▶ Tell your supervisor.
- ▶ Call the plant/facility supervisor. Call the operations asbestos contact.
- ▶ Keep off the site until you are told it's safe.

Division	Plant/Facility	Facility Supervisor	Contact #	Operations Asbestos Contact	Contact #
