

General Notes

1. The Contract Administrator will prior to start of construction mark out the exact limits of the Work in the field. The drawing denotes a fairly accurate representation of the location and limits of the Work, but the exact limits will be marked out in the field.
2. Contractor shall review these plans thoroughly, make a detailed site visit, and shall immediately bring any inconsistency, site layout problem, or any other request for clarification to the Contract Administrator for resolution prior to the delivery of any bid. Failure to do so shall cause the Contractor to be ineligible for extras relating to such matters.
3. Contractor to obtain and pay for all permits
4. Contractor to obtain and confirm exact locations and elevations of all utilities prior to start of construction
5. Asphalt concrete pavement works to be done in accordance with City of Winnipeg Specification CW 3410
6. Sub grade, sub base, and base coarse to be done in accordance with City of Winnipeg Specification CW 3110
7. Topsoil and Seed as per City of Winnipeg Specifications CW 3540 and CW 3520 respectively
8. Topsoil and Sod as per City of Winnipeg Specifications CW 3540 and CW 3510 respectively
9. The Contract Administrator will mark out the locations of new bench installations in the field prior to start of construction
10. Contractor to contact City of Winnipeg Transportation Division Traffic Management Branch (986 - 5288) after installation of para curbs for installation of proper signage.

LOCATION PLAN
