E3.1 All equipment supplied under this Contract shall undergo an inspection by The City of Winnipeg prior to placing the equipment into service. Thorough examination of the equipment by the City shall be required as part of the inspection process. At its option, the City may discontinue the process upon finding a lack of conformance to the specifications. The deficiency shall then be rectified by the Contractor and the inspection process shall then commence anew.

E3.2 Equipment that fails to successfully complete the inspection process shall be rejected by the City and shall be removed from City property by and at the expense of the Contractor, promptly after notification by the Contract Administrator or the Equipment Inspector.
