Winnipeg Police Service Hearing Standards

- No restrictions needed form hearing-dependent tasks if, on audiometric testing, all pure tone thresholds are 25 dB or less in each ear at each frequency - 500, 1000, 2000, 3000 Hz.
- Will need restrictions from hearing-dependent tasks, if on audiometric testing, the pure-tone threshold in the better ear is greater than an average of 40dB over 500, 1000, and 2,000 Hz, with or without a hearing aid.
- Complete In-Canal hearing aides are acceptable if the hearing loss is corrected to no greater than 25 dB in each ear at each frequency 500, 1000, 2000, 3000 Hz.

PURE TONE THRESHOLDS IN HZ	500	1000	2000	3000	4000	6000	8000
RIGHT EAR							
LEFT EAR
