Performance Reporting – Innovation, Transformation, and Technology

Description

The Innovation, Transformation, and Technology service enables City service delivery through the use of responsive innovation and technology services. In addition, the service facilitates digital service delivery through coordination of continuous improvement and innovation programming, and management of the City's information and technology assets. This service enables creation of a quality customer and employee experience through systemic, sustainable, and value-driven change for City services, processes, information, and technologies.

The key service is innovation and technology.
