

Plan of Subdivision and Rezoning (DASZ) Application Form

Use this application if you want to subdivide land and change its zoning at the same time. This process helps make sure your project fits with city plans and zoning rules. It's often used for new developments that need both land division and a zoning change to move forward.

“DASZ” definition:

“DASZ” means a development application for the approval of a plan of subdivision and the rezoning of the land contained therein. This type of application is for a proposed plan of subdivision that creates new lots and requires a zoning change. This application requires a public hearing at Community Committee and Council approval.
