

Plan of Subdivision (DAS) - Creates a Public Street Application Form

Use this application if you want to divide a parcel of land into lots and create a new right-of-way (street or lane). This process is called a subdivision and is often needed for new developments. It helps make sure the land division follows city planning rules and supports future growth.

"DAS" definition:

"DAS" means a development application for the approval of a plan of subdivision for which a public hearing is required and which will, upon registration, subdivide property and create new rights-of-way (streets and lanes). Requires a public hearing at Community Committee and Council approval.
