**Note:** The two maps below were provided in large format for every participant group at the workshop.

**Low Density Neighbourhood**

**Mixed Density Neighbourhood**
Exercise #1: Subdivision of one lot into two lots

Question #1: Below are some ideas for how the City might consider subdivisions of one lot into two lots in mature neighbourhoods. Please circle the number for any of the options below that you agree with and/or provide an ‘other’ option.

The subdivision of one lot into two lots should:

1. be allowed as of right for any lot that is 50 feet wide or greater
2. occur where there is an example of one similar sized lot on the block
3. be allowed for a specified percentage of lots on the block
4. be limited to a specified number of lots on the block
5. other – please explain

__________________________________________________________________________________

Question #2: Looking at the sample neighbourhood for lower density, please circle which quadrant(s) you believe the subdivision of one lot into two should be accommodated (e.g. 1A or 3B) and provide some quick thoughts as to why?

1A  1B  1C
2A  2B  2C
3A  3B  3C
4A  4B  4C

Exercise #1: Two-Family Dwellings

Question #1: Below are some ideas for how the City might consider introducing two family dwellings into mature neighbourhoods. Please circle the number for any of the options below you agree with and/or provide an ‘other’ option.

Two family dwellings should be allowed:

1. As of right
2. where there are examples on the block of other two-family or greater density housing
3. on lots that could be subdivided into two lots
4. for a specified percentage of lots on the block
5. for a specified number of lots on the block
6. other – please explain

Exercise #1: Triplex

**Question #1:** Below are some ideas for location criteria to consider when determining appropriateness for establishing triplex dwellings. Please select up to 3 criteria that you believe the City should consider.

1. On corner lots
2. Within close proximity to transit
3. Within walking distance to schools
4. Within close proximity to parks
5. In close proximity to buildings with similar densities
6. On streets with more frequent traffic
7. Next to non-residential buildings
8. On lots that are larger than are typically found in the neighbourhood
9. On lots located mid-block
10. Near commercial and other community amenities

**Question #2:** What other criteria should the City consider?

Exercise #1: Fourplex

**Question #1:** Below are some ideas for location criteria to consider when determining appropriateness for establishing fourplex dwellings. Please select up to 3 criteria that you believe the City should consider.

1. On corner lots
2. Within close proximity to transit
3. Within walking distance to schools
4. Within close proximity to parks
5. In close proximity to buildings with similar densities
6. On streets with more frequent traffic
7. Next to non-residential buildings
8. On lots that are larger than are typically found in the neighbourhood
9. On lots located mid-block
10. Near commercial and other community amenities

Exercise #1: Small Scale Apartment

Question #1: Below are some ideas for location criteria to consider when determining appropriateness for establishing small scale apartments. Please select up to 3 criteria that you believe the City should consider.

1. Within close proximity to transit
2. Within walking distance to schools
3. On corner lots
4. Within close proximity to parks
5. In close proximity to buildings with similar densities
6. On streets with more frequent traffic
7. Next to non-residential buildings
8. On lots that are larger than are typically found in the neighbourhood
9. On lots located mid-block
10. Near commercial and other community amenities
