May 25, 2020

CITY OF WINNIPEG
CONSTRUCTION NOTICE

TO: Residents/Business Owners on Rupert Street between Main Street and King Street

RE: Rupert Avenue construction

Construction start: May 18, 2020
Duration: Anticipated construction 2-4 weeks
Impacted streets: Rupert Street

The project team would like to provide you with this update regarding the installation of trees on Rupert as we know they are an important feature to you.

Although one of the project’s goals was to add trees to the space, the underground utilities have proven to be a constraint. The project will only be able to install 2 trees rather than 4 as initially intended.

Rupert Avenue information:

Remaining work on Rupert Avenue is expected to take approximately 3-4 weeks and includes:

- Completing required underground and sewer works.
- Placement of new curbs and pavement bumps out to accommodate Back In Angled Parking.
- Construction of new sidewalk.
- Construction of Tree Vaults and associated work.

Parking has been removed from the north curb lane between Main Street and King Street in order to facilitate the work.

General information:

If you have any delivery, or loading requirements that we should be aware of, please contact us to discuss your needs.

We also ask those with accessibility concerns, planned special events, known underground appurtenances (such as sprinklers or lighting cables within three metres of the street property line), or any questions or concerns to contact Thomas Findlay: thomas.findlay@aecom.com. AECOM is the City’s contract administrator for the project.

For more information on major construction projects:
Visit winnipeg.ca/publicworks or call 311
We understand that now is a time of much uncertainty but want to inform you we are proceeding on the assumption that construction season will continue. We will be using alternate means of communication to ensure that discussions which would have formerly took place in person still occur. If you anticipate being away from your business and/or mailbox for an extended period of time, please contact us with an alternative address, phone number, and email at which we can reach you leading up to and during construction.

We appreciate your patience during construction and look forward to improved roadways in Downtown Winnipeg.

Sincerely,

Thomas Findlay, P. Eng
