CITY OF WINNIPEG CONSTRUCTION NOTICE

TO: RESIDENTS AND BUSINESSES

RE: CITY OF WINNIPEG
2021 LOCAL STREET RENEWAL PROGRAM
DOWKER AVENUE RECONSTRUCTION – CROWSON BAY (EAST LEG) TO SOUTH DRIVE

Please be advised that Dowker Avenue between Crowson Bay (East leg) and South Drive is scheduled to be reconstructed between the end of May 2021 and early November 2021. We are writing now to ensure you receive proper notice of impacts to your area. You will receive another notice with greater detail approximately one to two weeks before construction begins.

Construction start: Late May 2021

Duration: To be determined and will be detailed in next notice

Traffic implications:

- Dowker Avenue will be closed to all traffic. During construction, on-street parking is available on the adjacent streets including Dowker Avenue west of Crowson Bay, Riley Crescent south of Dowker Avenue, Lyon Street north of Dowker Avenue, Buxton Road south of Dowker Avenue, and on South Drive where permitted.
- Reconstruction will be completed in two (2) phases:
  - Phase 1: Dowker Avenue from Crowson Bay to Wicklow Place
  - Phase 2: Dowker Avenue from Wicklow Place to South Drive
- We will provide access to residences as much as possible; however temporary closures at individual approaches may be necessary for repairs
- Emergency access will be maintained throughout.
- We will contact you personally in advance if your property will be affected

As part of this project we will remove existing pavement, and replace it with a new asphalt roadway, install new street lighting, adjust manholes, renew the sidewalk and restore the boulevard, and construct new concrete curbs and gutters.

During construction the garbage and recycling collection will not be affected; you are asked to continue to place your bins out on collection day. The contractor will relocate the garbage and recycling as needed. Please put your house numbers on your collection bins so our crews can return them to the proper locations.

If you have accessibility concerns, special access requirements, or any other questions regarding this construction, please contact Grant Colvin of Dillon Consulting Limited at 204-223-8042.

Sincerely,
