CITY OF WINNIPEG CONSTRUCTION NOTICE

TO: Resident/Business Owner on University Crescent
RE: University Crescent Pavement Renewals Project – Phase 2

Phase 2 Construction start: July 18, 2022
Expected Phase 2 Completion: October 2022
Construction Limits: University Crescent from Thatcher Drive to Pembina Highway

The University Crescent Pavement Renewals project is broken into three phases:

**Phase 1 – Chancellor Matheson Road to Sifton Road**
Completed in November 2021

**Phase 2 – Thatcher Drive to Pembina Highway**
Scheduled for July to October 2022

**Phase 3 – Sifton Road to Thatcher Drive**
Scheduled for May to October 2023

Phase 2 construction is expected to begin July 18, 2022.

This year’s construction is broken into two stages. Stage 1 will involve the full reconstruction of the northbound pavement with new east side bicycle pathway and sidewalk (July to September 2022). Stage 2 will involve the asphalt resurfacing of the southbound pavement with curb and sidewalk renewals (September to October 2022).

Traffic implications will be as follows:

- In both stages, traffic will be restricted to one lane in each direction, except as required for special events.
- During Stage 1, the northbound lanes from Thatcher Drive to Pembina Highway will be completely closed to traffic for the full reconstruction. Residents on the east side of University Crescent from house #36 to #42 and #52 to #74 will not have access to driveways and will be permitted to park within the time- and event-restricted parking areas on Wedgewood Drive, Thatcher Drive or Agassiz Drive. PLEASE NOTE: Homeowners on University Crescent from house #36 to #42 and #52 to #74 must register their license plates prior to parking in these zones (see below, for residents that have not have already done so).
- Access to #30 University Crescent apartments will be maintained at all times.
- One of either the Wedgewood Drive or Thatcher Drive intersection at the east side of University Crescent will remain open at all times.

City File No. 21-C-02 | Tender No. 307-2022 | Contractor – Bituminex Paving
July 5, 2022

- Pedestrian and vehicle access to properties adjacent to Stage 2 work in the southbound lanes will be maintained as much as possible with short-term, temporary adjustments as required – any disruption to access will be communicated to the affected properties in advance.

- Sidewalk and pathway closures will be required throughout the project - signage advising of alternate routes will be in place.

- Normal Winnipeg Transit service will be maintained through the project site with temporary bus stop relocations when required. Winnipeg Transit Service reroute may be required during special events.

- All residents on University Crescent are to place their garbage and recycling carts in the normal location by 7:00 a.m. on collection day. Contractor staff will relocate the carts from your property to the edge of the construction for zone for pickup. Please ensure that your address is marked on the carts.

- Garbage and recycling pickup for businesses and apartments will be maintained at all times, except if a short-term access disruption is required, in which case we will advise you in advance.

East side residents from #36 to #42 and #52 to #74 University Crescent: if you have not already done so, please email the license plate numbers of any vehicles you will need to park on Wedgewood Drive, Thatcher Drive or Agassiz Drive during Stage 1 construction to ryan.cunningham1@aecom.com. This information will be provided to the Winnipeg Parking Authority to ensure these vehicles are flagged as having permission to park in the restricted areas.

We understand this project may cause you some inconvenience and thank you for your patience. Should you have any questions concerning the project, or have accessibility needs, moving requirements, planned special events or known underground appurtenances (such as sprinkler systems, lighting cables, etc.) within 20 feet of the curb, please contact the undersigned at (204) 928-8377 or ryan.cunningham1@aecom.com. Further information and project updates can be found at winnipeg.ca/universitycres. We look forward to improved roadways on University Crescent in the Fall of 2022.

Sincerely,

Ryan Cunningham, P.Eng.
