

November XX, 2017

TO: Residents

Dear Sir/Madam:

Project No: City File No. 16-G-01

Regarding: Rue des Trappistes at Westendorf Coulee Culvert Replacement and Road Reconstruction

As indicated in our previous invitation to you to attend the Public Information Session for this Project, the replacement of the culvert crossing at Westendorf Coulee under Rue des Trappistes and the reconstruction of the roadway pavement on Rue des Trappistes from Rue du Monastere to Pembina Highway has been approved by City Council as part of the 2016 Capital Program of the City of Winnipeg, Public Works Department. Construction of the culvert replacement will start towards the end of **November, 2017** and is expected to be completed mid-March. The work will involve demolition of the existing metal culvert and installation of new concrete pipe culverts. During this period of winter culvert construction, Rue des Trappistes will be **fully closed** to all modes of transportation at the culvert crossing.

Roadway reconstruction work from Rue du Monastere to Pembina Highway will begin when weather permits in Spring 2018. Another notice will be delivered to you when the road work is about to commence.

We recognize the fact that this project may cause you some inconvenience and disruption during its course and apologize for this. Should you have any questions concerning the project at this time or during construction, please contact the undersigned at 204-977-8370. Your patience during construction will be much appreciated.

Yours truly,
Morrison Hershfield Limited

Bill Ebenspanger
Structural Engineer
