

## Fermor Ave Bridge Rehabilitation and Roadworks

### Preliminary Design

### Open House

Southdale Community Centre,  
254 Lakewood Blvd.

Tuesday, December 13, 2016

4:00pm - 8:00pm

Drop-in anytime during the session

In early 2016, the City of Winnipeg initiated the preliminary design for Fermor Avenue between St. Anne's Road and Archibald Street, including the bridge over the Seine. A preliminary design option for the road and bridge rehabilitation as well as improvements to the pedestrian and cycling network have been developed for the study area.

Join us at an open house to view the preliminary design ideas for the bridge rehabilitation and roadworks, and learn about pedestrian & cycling infrastructure, and intersection & road improvements.

At the open house you will have the opportunity to provide your feedback through speaking with members of the consultation team or by filling out an exit survey.
