

## ***You're Invited to the City of Winnipeg's Organics Diversion Strategy Symposium!***

***Wednesday, September 9, 2015  
5:30 pm - 7:30 pm (registration at 5:00pm)  
West End Cultural Centre – 586 Ellice Avenue  
Light Refreshments Provided***

This is your opportunity to learn more about the City's efforts to manage organic waste and tell us what you want in an organics program.

City Council approved a comprehensive waste management plan in October 2011, designed to keep more than half of our garbage out of the landfill by giving Winnipeg residents more ways to reduce, reuse and recycle.

Organics diversion programs will be necessary to reach this goal as organics make up approximately 40% of Winnipeg's residential waste stream.

At the symposium, you will:

- learn various perspectives on managing organic waste from an expert speaker panel
- interact with local citizen, business and community stakeholders
- take part in breakout sessions where you can share your thoughts

***Together we can create a comprehensive organic waste management strategy!***

Register [online](#) or call 311!

*Space is limited, so please register early.*

You can also watch the session and join the conversation online at
